Membership

Elementary School District No. 2 is a third class district and, as such, has three Board Members. Each Board Member serves a three year term. Terms are staggered according to law. Trustees are elected at the annual school election.

Election

Board elections shall be held on the first Tuesday after the first Monday of May of each year. A person who is a qualified voter of the District is legally qualified to become a trustee. Any five third-class qualified electors may nominate as many trustee candidates, as there are trustee positions subject to election at the ensuing election. The name of each person nominated for candidacy shall be submitted to the Clerk of the District not less than forty (40) days before the regular school election day at which he/she is to be a candidate. If there are different terms to be filled, the term for which each candidate is nominated shall also be indicated. If there are no contested seats, the trustees may declare the trustee election by acclamation, and if there is no other reason for the election, the district may cancel it. If there is a trustee election and there is a tie, the trustees must appoint one of the candidates who tied to fill the office. For procedures for the election, the Alder School District will follow the latest version of the *School Election Handbook*.

Taking Office

A newly-elected trustee shall take office as soon as the election results have been certified and the newly-elected trustee has taken and subscribed to an oath that he/she will faithfully and impartially discharge the duties of the office to the best of his/her ability. Such oath shall be filed with the County Superintendent within fifteen (15) days after the receipt of the certificate of election.

Resignation

Resignation of a trustee, for whatever reason, must be submitted in writing to the Clerk of the District. A resignation is effective 72 hours after its submission unless withdrawn during that period by the resigner through written notification of withdrawal made to the district clerk. The Board shall then accept the resignation by formal action and proceed to fill the vacancy as provided by statute and Board policy. Trustees retiring from the Board will be recognized for their service to the District by presentation of a service plaque or other appropriate activities.

Philosophy

The Board of Trustees is guided by the conviction that all students are capable of learning to high standards and that they have a right to the best education this community can provide. Responsibility for this rests with all citizens, parents, school staff and students, with the ultimate responsibility for direction and decision-making assumed by the Board of Trustees.

The Board will exert leadership in creating, maintaining and improving the school for the children's educational needs. The focal point of concern in our school system is the student. Organization, staffing, programming, teaching, and funding should all be developed primarily and basically to enhance appropriate opportunities for students to learn and develop—personally, academically and socially.

Board/staff Communications

Every reasonable means of communication is encouraged throughout the education community. Nevertheless, an organization must maintain some order and structure to promote efficient and effective communication.

Staff Communication to the Board

All official communication regarding complaints and grievances to the Board from principals, teachers, or other staff members shall be submitted through the Superintendent or Principal if one is employed, otherwise the county superintendent or designee. This shall not deny any staff member's right to appeal an administrative decision to the Board.

Board Communications to Staff

All official communications, policies, and directives of staff interest and concern will be communicated to staff members through the Superintendent or Principal if one is employed, otherwise the county superintendent. The Superintendent or Principal if one is employed, otherwise the county superintendent, will employ all such media as are appropriate to keep staff fully informed of the Board's concerns and actions.

Visits to Schools

In accordance with Montana statutes, each trustee shall visit each school of the District not less than once each school fiscal year to examine its conditions and needs. Individual Board members interested in visiting schools should, out of courtesy, make arrangements for visitations through the principal/lead teacher of the various schools. Such visits shall be regarded as informal expressions of interest in school affairs and not as "inspections" or visits for supervisory or administrative purposes.

Social Interactions

Staff and Board members share a keen interest in the schools and education. When they meet at social affairs and other functions, informal discussion on such matters as educational trends, issues, and innovations and general District problems can be anticipated. **Discussions of personalities or staff grievances are not appropriate.**

Expenses for Board Members-In-District

The Trustees shall not receive remuneration for their service as a Trustee. Trustees living more than three miles from the meeting place shall be entitled to mileage at the rate stipulated in ~~§18-503~~ §2-18-503, MCA, for each mile of travel from their homes to the meeting place for each meeting of the Board and for any meeting called by the County Superintendent of Schools. Such travel reimbursement may be paid as the travel is assumed or may accumulate until the end of the fiscal year, at the discretion of the reimbursed Trustee.

Expenses for Board Members at Out-of-District Meetings

Trustees elected by the citizens to serve on the Board that provides governance to the District, a financially large public enterprise, serve without financial compensation. To intelligently deal with numerous issues and to budget and monitor thousands of dollars in expenditures annually, training and communications are essential. Trustees normally attend workshops, training institutes, and conferences at both the state and national level. It is appropriate that the District pay Trustee expenditures at these out-of-District meetings.

It is the intent of the District to pay all legitimate costs for Trustees to attend out-of-District meetings. The purpose of this policy is to provide for expenditure guidelines and define what is considered legitimate expenses of attendance at out-of-District meetings. The District will pay the cost for:

1. Transportation to and from the meeting site in the amount of the cheapest available air fare if the meeting is more than 300 miles from Alder, and at the per mile rate approved for the District for meetings 300 miles or less from
2. On-site transportation: For necessary transportation by bus, taxi or rental car during the course of the meeting.
3. Hotel or motel cost for Trustee room accommodations at the meeting or convention headquarters facility or other as necessary. If at a convention, the headquarters hotel cannot accommodate all of the participants and a Trustee must stay at an alternative facility, the cost of the alternative facility will be paid.
4. Food costs as necessary: Since food costs vary significantly from one location to another, a specific dollar allowance for meals per day is not possible to establish. Trustees are requested to be modest in their meal expenditures.
5. Telephone services: Necessary telephone communications with business or family resulting from the Trustee being away from Alder.
6. Incidental expenditures for tips and other necessary costs attributable to the Trustee's attendance at the meeting.
7. Registration and materials which are a part of the meeting agenda and/or requirements.

Curriculum Development

The Board is responsible for establishing a process which ensures: incorporating all required state student content standards into the District's curriculum; defining and organizing the program area standards into specific curricula and for extending them to help students meet the challenges of the future; introducing the standards when appropriate; implementing them sequentially and developmentally; and building upon previous goals. Student assessment shall be used to examine the program and ensure its effectiveness.

In all program areas and at all levels, the District shall establish curriculum and assessment development processes as a cooperative effort of personnel certified in the program area and trustees, administrators, other teachers, students, specialists, parents, community and, when appropriate, state resource people.

District Assessment

In all program areas and at all levels, the District shall assess student progress toward meeting state student performance standards including: the content and data; the accomplishment of appropriate skills; the development of critical thinking and reasoning; and attitude. The District will use assessment results to improve the education program and use effective and appropriate tools for assessing both student and program progress. This may include but is not limited to: standardized norm and criterion-referenced tests; teacher-made tests; on-going classroom evaluation; actual communication assessments such as writing, speaking, and listening assessments; samples of student work and/or narrative reports passed from grade to grade; samples of students' creative and/or performance work; and surveys of carryover skills to other program areas and outside of school.

Program Evaluation and Diagnostic Tests

The Board strives to achieve efficiency and effectiveness in all facets of its operations. In order to achieve this goal, the Board shall strive to set forth:

1. A clear statement of expectations and purposes for the District's instructional program;
2. A provision for staff, resources and support to achieve the stated expectations and purposes; and,
3. A plan for evaluating instructional programs and services to determine how well expectations and purposes are being met.

Parents who wish to examine any assessment materials may do so by contacting the Supervising Teacher or the Principal. Parent approval is necessary before administering an individual intelligence test or a diagnostic personality test. No tests or measurement devices containing any questions about a student's or his/her family's personal beliefs and practices in family life, morality and religion shall be administered unless the parent or guardian gives written permission for the student to take such test, questionnaire or examination.

District-Wide Standardized Testing Program

While standardized norm-referenced tests have limitations, they also have some potential to improve the quality of the instructional program. They can provide some program information at the classroom and school levels. They can be used to identify some of the strengths and weaknesses in the instructional program, to identify instruction improvement priorities, and, when examined over a period of years, they allow the staff to see trends in the effectiveness of lower level skills in the instructional program. A state standardized criterion-referenced test will also be administered in grades 3 through 8 in Reading and Mathematics and in Science in grades 4 and 8 to all students except those whose Individual Education Plans specifically prevent them from participating in the instructional programs in these subject areas. The tests will be given in the spring under the direction of the Office of Public Instruction.

School and Classroom Assessment Measures

The _____ School District recognizes that equally or more important than standardized, norm-reference tests in determining student success in school are classroom assessment measures which provide for a variety of performance assessments, portfolio assessments, criterion reference tests and teacher observation. Unit plans should reflect utilization of these types of assessment and results should be shared with the student and his/her parent(s)/guardian. Before the revision of any instructional program, the District will review all the assessment processes, procedures and results to determine if the purposes of the program are being accomplished.

Consolidated Plan for ESEA Federal Programs: Titles I, II, IV

Parent and community involvement are positively linked to student and school success and will be a critical part of the Consolidated Plan for the District.

Under the parent and community involvement provisions of the Elementary and Secondary Education Act, 20 USC 2701, et seq., a local educational agency (LEA) operating any of the above federal programs must develop written policies to ensure that citizens have an adequate opportunity to participate in the design and implementation of these programs.

Data will be gathered in a consistent, organized manner and will be arranged in an understandable format for the general public.

In recognition of the necessity to report the District's success at improving school performance to the public, the Board of Trustees will report on a regular basis the progress that has been made through:

1. Board Meetings;
2. The District's Annual Report Card;
3. Parent/Teacher Conferences (Included in this area are IEP and Section 504 Team Meetings);
4. Fliers mailed to residents, notes sent home and phone calls to parents;
5. Federal Programming Reporting.

All students, teachers and other beneficiaries of District programs are ensured equal opportunity to participate in these programs. The District will make a systematic effort to guarantee that all teachers equally benefit from professional development opportunities and that there will be high student success through guaranteed access and success among teacher and other beneficiaries and ultimately the students.

Title I Parent Involvement

Note: Schools receiving federal ESEA funds are required to have a parent involvement policy. This sample policy can be used as the basis for development of a policy as required by the federal legislation. This policy cannot be the District's policy without some parental involvement in the development at the local level.

The District endorses the parent involvement goals of Title I and encourages regular participation of parents of Title I eligible children in all aspects of the program. The education of children is viewed as a cooperative effort among parents, school, and community. In this policy the word "parent" also includes guardians and other family members involved in supervising the child's schools.

Pursuant to federal law, the District will develop jointly with, agree upon with, and distribute to parents of children participating in the Title I program a written parent involvement policy.

At the required annual meeting of Title I parents, parents will have opportunities to participate in the design, development, operation, and evaluation of the program for the next school year. Proposed activities to fulfill the requirements necessary to address the requirements of parental involvement goals shall be presented.

In addition to the required annual meeting, at least three (3) additional meetings shall be held at various times of the day and/or evening for parents of children participating in the Title I program. These meeting shall be used to provide parents with:

1. Information about programs provided under Title I.
2. A description and explanation of the curriculum in use, the forms of academic assessment used to measure student progress, and the proficiency levels students are expected to make.
3. Opportunities to formulate suggestions and to participate, as appropriate, in decisions relating to the education of their children; and
4. The opportunity to bring parent comments, if they are dissatisfied with the school's Title I program, to the district level.

Title I funding, if sufficient, may be used to facilitate parent attendance at meetings, through payment of transportation and childcare costs.

The parents of children identified to participate in Title I programs shall receive from the school principal, lead teacher, and Title I staff an explanation of the reasons supporting the child's selection for the program, a set of objectives to be addressed, and a description of the services to be provided. Opportunities will be provided for parents to meet with classroom and Title I teachers to discuss their child's progress. Parents will also receive guidance as to how they can assist at home in the education of their children.

Each school in the District receiving Title I funds shall develop jointly with parents of children served in the program a "School-Parent Compact" outlining the manner in which parents, school staff, and students share the responsibility for improved student academic achievement in meeting state standards. The "School-Parent Compact" shall:

1. Describe the school's responsibility to provide high quality curriculum and instruction in a supportive and effective learning environment enabling children in the Title I program to meet the state's academic standards;
2. Indicate the ways in which each parent will be responsible for supporting their child's learning, such as monitoring attendance, homework completion, and television watching; volunteering in the classroom; and participating, as appropriate, in decisions related to their child's education and positive use of extra-curricular time; and

3. Address the importance of parent-teacher communication on an ongoing basis with, at a minimum, parent-teacher conferences, frequent reports to parents, and reasonable access to staff.

NOTE: Districts with more than one (1) school participating in a Title I program may wish to consider the establishment of a district-wide parent advisory council.

Special Education

The District shall provide a free, appropriate, public education and necessary related services to all children with disabilities residing within the District, as required under the Individuals With Disabilities Education Act (hereinafter "IDEA") and implement provisions in Montana law, Section 504 of the Rehabilitation Act of 1973, and the Americans With Disabilities Act. It is the intent of the District to ensure that students who are disabled within the definitions of state and federal laws are identified, evaluated and provided with appropriate educational services. Students may be disabled within the meaning of Section 504 of the Rehabilitation Act, even though they do not require services pursuant to the IDEA. The District will work with its Special Education Cooperative to develop specific procedures consistent with state and federal laws and District philosophy.

The District will review and approve the policies and standards of the Special Education Cooperative at a public meeting and the Board Chairperson will sign off on the acceptance of those policies and guiding the Special Education Program of the District.

Child Identification

The District is responsible for ensuring that all children with disabilities within its jurisdiction are identified, located, and evaluated, including children in all public and private agencies and institutions within that jurisdiction. Child find activities shall be conducted in collaboration with the Special Education Cooperative to which the District belongs. Collection and use of data are subject to state and federal confidentiality requirements.

Confidentiality of Personally Identifiable Information

The District, in accordance with the Program Narrative submitted to the Office of Public Instruction, through its Special Education Cooperative, agrees to adhere to the regulations regarding confidentiality found in the Family Educational Rights and Privacy Act (FERPA), as well as in "Guidelines for Student Records," a technical assistance manual of the Office of Public Instruction.

Full Educational Opportunity Goal

It is the goal of the District to provide full educational opportunity to all students with disabilities, aged birth through twenty-one, consistent with the timetable in the Montana State Plan under Part B of the Individuals with Disabilities Education Act.

Personnel Development

Each disabled student is entitled to appropriate instruction and services by professionally trained and competent personnel. All employees with responsibility for the education of disabled students shall be provided opportunities to increase pertinent skills and competence beyond that ordinarily gained through job performance. The Board shall develop a plan for personnel development in cooperation with the District employees, parents and the Special Education Cooperative.

Parent or Legal Guardian Involvement

The District recognizes that cooperation and communication between parent and school is essential to the development and implementation of the education program for disabled students.

This cooperation and communication shall be designed by the District to assure that the rights of disabled children and their parents or guardians are protected and to assess and assure the effectiveness of efforts to educate disabled children.

Participation in Regular Education

A continuum of alternative placements is available which consists of instruction in regular classes, special classes, special schools, home instruction and instruction in hospitals and institutions. To the maximum extent appropriate, children with disabilities, including children in public or private institutions or other care facilities, are educated with children who do not have disabilities. Special classes, separate schooling or other removal of children with disabilities from the regular educational environment occurs only when the nature or severity of the disability is such that education in regular classes with the use of supplementary aides and services cannot be achieved satisfactorily. Educational placement decisions are made in accordance with the policies and principles as identified in the Placement in the Least Restrictive Environment special education technical assistance document published by the Office of Public Instruction.

Protection in Evaluation Procedures

Evaluation and identification of students is conducted in accordance with the following administrative rules (ARMS): 10.16.113 Comprehensive Educational Evaluation Process, 10.16.114 Composition of a Child Study Team, and 10.16.1101 Protection in Evaluation Procedures.

Individualized Education Program

The District has adopted the Individualized Education Program technical assistance manual published by the Office of Public Instruction as the policy and procedures manual for the development of individualized education programs (IEP) for children with disabilities.

Procedural Safeguards

Children with disabilities and their parents will be afforded the procedural safeguards as required in Section 615 of IDEA '97. To that end, the District will provide a copy of the brochure, Parental Rights in Special Education, to the parent or guardian a reasonable time before the District:

1. Proposes to initiate or change the identification, evaluation, or educational placement of the child or the provisions of free, appropriate public education to the child; or
2. Refuses to initiate or change the identification, evaluation, or educational placement of the child or the provision of free, appropriate public education to the child.

Disciplinary Issues for Children with Disabilities

The District recognizes that free, appropriate public education shall be available to all children with disabilities including children with disabilities who have been suspended or are expelled from school. Suspension and expulsion of students with disabilities will be conducted in accordance with the IDEA 1997 amendments and with procedures identified in the Suspension/Expulsion Manual published by O.P.I. The District may place the child in an alternative education setting, another setting, or suspension for not more than 10 days. If the child brings a weapon to school or to a school function or possesses/uses/sells illegal drugs, the appropriate interim for an alternative educational setting can be up to 45 days.

Forms

The District agrees to submit all required forms used to document the provision of free, appropriate public education to children with disabilities, through its Special Education Cooperative, to the Office of Public Instruction.

Homebound, Hospital and Home Instruction

Homebound, hospital or home instruction may be provided to a student who is physically or emotionally unable to attend school. A student absent from school for more than two consecutive weeks because of health problems will be provided the services of a teacher or an aid in the home or hospital. Appropriate educational services may be begun as soon as eligibility has been established with a written statement from a licensed medical examiner and a written parental or guardian request.

Whereas homebound and hospital instruction is intended for those students who are unable to attend school because of a medical disability, home instruction is designed for able-bodied students who have emotional disturbances and/or severe behavioral difficulties which present a clear and present danger to self and others. Under these circumstances a temporary educational placement outside of the school environment must be provided until an appropriate placement can be found, or until it is determined that the student can be safely returned to the school environment.

Gifted Program

To the extent possible with available resources, all gifted and talented students will have the opportunity to participate in appropriate educational programs. “Gifted and talented students” are students of outstanding abilities, who are capable of high performance and who require differentiated educational programs beyond those normally offered in public schools, in order to fully achieve their potential contribution to self and society.

The District shall:

- Provide educational services to gifted and talented students that are commensurate to their needs, and foster a positive self-image.
- Comply with all federal and state laws and regulations regarding addressing gifted education.
- Provide structured support and assistance to teachers in identifying and meeting the diverse student needs of gifted and talented students, and shall provide a framework for considering a full range of alternatives for addressing student needs.

The Superintendent will establish procedures consistent with state guidelines for nominating, assessing, and selecting children of demonstrated achievement, or potential ability in terms of general intellectual ability and academic aptitude.

Distance, Online, and Technology Delivered Learning

The Alder Board of Trustees recognizes and values quality instruction provided to students on campus by Montana licensed educators. Local campus based education, serves as the primary and preferred source of instruction for most Alder students. The Board further recognizes that for some students distance learning is an appropriate supplemental or alternative means to provide quality educational services. For purposes of this policy, "distance learning" is defined as: instruction in which students and teachers are separated by time and/or location with synchronous or asynchronous content, instruction, and communication between student and teacher (e.g. correspondence courses, online learning, video conferencing, streaming video).

Credit for distance learning courses may be granted; provided the following requirements are met:

1. Prior permission has been granted by the supervising teacher or county superintendent;
2. The program fits the student's education plan agreed upon by the classroom teacher, the student, and the parent.
3. The course does not replace a required course offered by the District;
4. Credit is granted for schools and institutions approved by the District after the course is successfully completed.

The District will not be obligated to pay for a student's distance learning courses.

Organization, Grouping and Class Size

Grade Organization

The grade organization in the District for instruction purposes shall be Kindergarten through 6th grade.

Instructional programs shall be coordinated between each grade and between levels of school.

Grouping for Instruction

A student will be assigned to an instructional group or a classroom that will best serve the needs of that individual while still considering the rights and needs of other students. Factors to be considered in classroom assignments are class size, peer relations, student-teacher relations, learning style of individual teachers and any other variables that will affect the performance of the student.

The criteria for grouping should be based upon the learning goals and objectives being addressed and the student's ability to achieve those purposes.

Class Size

It is the goal of the District to maintain class size at the optimum level appropriate to student learning needs and maturation levels. Optimum levels of class size shall be defined for these purposes as the number currently mandated by the Board of Public Education.

The Board of Trustees shall have the authority to combine classes, eliminate classes, or make assignments that provide for the most economical but educationally sound classroom environment.

Placement

While the curriculum within a classroom should have sufficient breadth to meet the needs of a variety of students, the school should make every effort to place present or new students into a classroom environment where the student may achieve optimum success as a learner. The Supervising Teacher or the Principal shall carefully consider physical maturity, social maturity, chronological age, mental maturity and achievement before assigning a student to a specific level.

Credit Transfer/Assessment for Placement

Requests from parents of students in non-accredited, non-public schools for placement in the District school system will be evaluated by the Supervising Teacher or the Principal. The assessment will take into account the following in its recommendation for grade placement:

1. Documentation that the non-accredited, non-public school has provided a comparable number of hours as the child would have attended in a public or private school;
2. The child followed a similar curriculum as would have been provided in an accredited public or private school;
3. The result of the end of the year test indicates the student has mastered most prerequisite skills.

Parents of students in elementary home schools are encouraged to maintain a log which documents dates of instruction, content of instruction, amount of time spent on that instruction, scores on tests, and the grades in all activities.

The District is not obligated to provide instructional materials for other public or private schools.

If a parent or guardian of a child is not in agreement with the placement of the child, he/she may request a hearing before the Board.

Library Materials
Loans

School District students and staff are provided school library and classroom library books primarily for their use. Students and staff may check out library books. Individuals that check out books are responsible for the care and timely return of those materials. The Supervising Teacher or the Principal may assess fines for damaged or unreturned books.

School District residents or parents/guardians of non-resident students attending Alder Public Schools may be allowed use of library books. However, such access shall not interfere with regular school use of those books. The intent of allowing public access to library books is for parents/guardians to share a reading/learning experience with their children. Use of the library books outside of the District is prohibited except for inter-library loan agreements with other libraries.

Selection of Library Materials

The District libraries' primary objective is implementing and supporting the educational program in the schools. It is the objective of these libraries to provide a wide range of materials on all appropriate levels of difficulty, with diversity of appeal and the presentation of different points of view.

Every child has the right to a variety of learning materials to broaden interests and experiences and to stimulate mental growth. The well-administered school library is the most effective and economical way to provide each child with exploratory experiences, reading guidance, instruction in the use of a variety of materials and curriculum enrichment.

The provision of a wide variety of library materials at all reading levels supports the District's basic principle that the school in a free society assists all students to develop their talents fully so that they become capable of contributing to the further good of that society.

In support of these objectives, the Board reaffirms the principles of intellectual freedom inherent in the First Amendment of the Constitution of the United States and expressed in the School Library Bill of Rights, endorsed by the American Association of School Librarians in 1969.

Ultimate responsibility for the selection of library materials rests with the Board. However, the Board delegates this responsibility to the Supervising Teacher or the Principal.

The selection of library material is a professional task conducted by the library staff. The selection should be based on:

1. Needs of the curriculum and requests from administrators and teachers.
2. Needs of individual students and requests by parents and students.
3. Provision of a wide range of materials at all levels of difficulty, with a diversity of appeal and presentation of different points of view.
4. Provision of materials that are accurate and objective.
5. Provision of materials that are relevant to today's world.
6. Provision of materials that represent artistic, historic and literary qualities.
7. Provision of materials appropriate for the age maturity level of the students using the libraries.

In selecting library materials, the librarian will evaluate the existing collection; assess curricula needs; examine materials and consult reputable, professionally prepared selection aids.

Weeding

When materials no longer meet the criteria for selection, they shall be weeded. Weeding is a necessary aspect of selection, since every library will contain works which may have answered a need at the time of acquisition, but which, with the passage of time, have become obsolete, dated, unappealing, or worn out.

Discarded materials will be clearly stamped:
"WITHDRAWAL FROM ALDER LIBRARY"

Materials will be discarded in compliance with state law.

Gifts

Gift materials may be accepted with the understanding that they must meet criteria set for material selection.

Selection and Adoption of Instructional Materials

The District is legally responsible to approve and to provide the necessary instructional materials used in the District. Textbooks and instructional materials, except those used as supplemental materials, shall be selected by the Supervising Teacher or Principal and adopted by the Board prior to their use in schools. The Supervising Teacher or the Principal may authorize trial-use texts of a pilot nature for a period of no more than one school year prior to Board adoption. Materials approved for trial use shall be restricted to classes specified. The responsibility for preparing student-reading lists and for examining, evaluating and selecting all supplementary materials is delegated to the professional staff of the District. Basic instructional course material in the fundamental skill areas of language arts, mathematics, science and social studies should be reviewed at intervals not exceeding five years. All instructional materials must be sequential and must be compatible with previous and future offerings.

Instructional materials may be made available for loan to students when the best interest of the District and student will be served by such a decision. Students will not be charged for normal wear. They will be charged replacement cost, however, for excessive wear, unreasonable damage or lost materials. The professional staff will maintain records necessary for the proper accounting of all instructional materials.

Curriculum committees will generally be responsible to recommend textbooks and major instructional materials purchases. Recommendations will be made to the Board. The function of the committee is to ensure that materials are selected in conformance with stated criteria and established District goals and objectives.

Instructional Material Selection, Adoption and Removal

A curriculum committee representing the various staff who will likely be using the materials shall select instructional materials. Each committee should develop, prior to selection, a set of selection criteria against which materials will be evaluated. The criteria should include the following along with other appropriate criteria. Instructional materials shall:

1. Be congruent with identified instructional objectives;
2. Present more than one viewpoint on controversial issues;
3. Present minorities realistically;
4. Present non-stereotypic models;
5. Facilitate the sharing of cultural differences;
6. Be priced appropriately.

Instructional materials may be removed when they no longer meet the criteria for initial selection, when they are worn out, or when they have been judged inappropriate through the Learning Materials Review Process (policy 4311).

Copyright Restrictions

The District recognizes that federal law makes it illegal to duplicate copyrighted materials without authorization of the holder of the copyright, except for certain exempt purposes. Severe penalties may be imposed for unauthorized copying or using of audio, visual or printed materials and computer software, unless the copying or using conforms to the "fair use" doctrine.

Under the "fair use" doctrine, unauthorized reproduction of copyrighted materials is permissible for such purposes as criticism, comment, news reporting, teaching, scholarship or research. While the District encourages its staff to enrich the learning programs by making proper use of supplementary materials, it is the responsibility of District staff to abide by the District's copying procedures and obey the requirements of the law. In no circumstances shall it be necessary for District staff to violate copyright requirements in order to perform their duties properly. The District cannot be responsible for any violations of the copyright law by its staff.

Any staff member who is uncertain as to whether reproducing or using copyrighted material complies with the District's procedures or is permissible under the law should contact the Supervising Teacher, Principal or their designee. They will assist staff in obtaining proper authorization to copy or use protected materials when such authorization is required.

Authorized Reproduction and Use of Copyrighted Material in Print:

In preparing for instruction, a teacher may make or have made a single copy of:

1. A chapter from a book;
2. An article from a newspaper or periodical;
3. A short story, short essay or short poem; or
4. A chart, graph, diagram, drawing, cartoon or picture from a book, periodical or newspaper.

A teacher may make multiple copies not exceeding more than one per pupil for classroom use or discussion if the copying meets the tests of "brevity, spontaneity and cumulative effect" set by the following guidelines. Each copy must include a notice of copyright.

Acceptable Use of Computers

New technologies are shifting the ways that information may be accessed, communicated and transferred. Those changes may also alter instruction and student learning. The School offers students access to the electronic information highway and the Internet, as well as online and distance learning when available and within District policy and procedure..

Rules and Responsibilities

Students are responsible for good behavior on school computer networks just as they are in a classroom or school hallway. Communications on the network are often public in nature. General school rules for behavior and communications apply.

Internet access is provided for students to conduct research and communicate with others in relation to schoolwork. Access to the Internet is given to students who agree to act in a considerate and responsible manner. Parent may request their students not use the Internet.

Access is a privilege, not a right. Therefore, based upon the acceptable use guidelines outlined in this document, the system administrators will deem what is inappropriate use and their decisions are final. The system administrators may close an account at any time. The administration, faculty, and staff of Alder School may deny, revoke or suspend specific user accounts.

Individual users of computers with Internet access are responsible for their use. Their use must be in support of education and research and must be consistent with academic expectations of Alder School. Use of other organizations' networks or computing resources must comply with the rules appropriate for those networks. Transmission of any material in violation of U.S. or state regulations, including copyrighted, threatening, or obscene materials, is prohibited. Use for commercial activities by for-profit organizations, product promotion, political lobbying, or illegal activities is strictly prohibited.

The user is expected to abide by the following rules of etiquette:

- C Be polite. Do not write or send abusive messages.
- C Use appropriate language. Do not swear, use vulgarities or any other inappropriate language.
- C Transmission of obscene materials is prohibited. Sending or receiving offensive messages or pictures from any source will result in immediate suspension of privileges.
- C Do not reveal the personal address or phone number of yourself or other students.
- C Do not communicate any credit card number, bank account number, or any other financial information.
- C Electronic mail is not guaranteed to be private. People who operate the system do have access to all mail. Inappropriate messages can result in suspension of privileges.
- C Do not use the network in such a way that would disrupt the use of the network by other users.
- C Vandalism - any malicious attempt to harm or destroy data of another user will not be tolerated. Any questionable action will result in cancellation of user privileges.

Violation of any of the above-mentioned rules and responsibilities will result in a loss of access and may result in other disciplinary or legal actions.

Field Trips, Excursions and Outdoor Education

The District recognizes that field trips when used as a device for teaching and learning integral to the curriculum are an educationally sound and important ingredient in the instructional program of the schools. Such trips can supplement and enrich classroom procedures by providing learning experiences in an environment beyond the classroom. The District also recognizes that field trips may result in lost learning opportunities in missed classes. Trustees do therefore endorse the use of field trips when the educational objectives achieved by the trip clearly outweigh any lost learning opportunities. The Supervising Teacher or the Principal has the authority to approve day field trips.

Each field trip must be integrated with the curriculum and coordinated with classroom activities, which enhance its usefulness.

No staff member may solicit students during instructional time for any privately-arranged field trip or excursion without Board permission.

Field trips are defined as travel away from school premises, under the supervision of a teacher of an approved course of study, for the purpose of affording students a direct learning experience not available in the classroom. Overnight field trips require Board approval.

The following procedures shall apply:**Day Field Trips**

1. Staff member requesting one-day field trip shall submit a completed field trip request form to the Supervising Teacher or the Principal at least three weeks prior to the field trip. This form shall include a list of instructional objectives as well as a list of pre and post learning activities. All field trip requests will be forwarded to the Board for final approval. Decision for approval will be based on weighing the educational benefits, costs and risks.
2. The sponsoring staff member is responsible to coordinate all activities related to the field trip. This includes ordering and confirmation of the bus, contact with the site to insure maximum learning opportunities, assessing all activities related to the site for safety, and for providing adequate supervision.
3. Adequate supervision will typically be defined in the elementary school as one adult supervisor for every ten students. Buses with fewer than 25 students will require one adult supervisor.

Overnight Field Trips

1. Staff members requesting overnight field trips must submit a written plan to the Board, including purposes of the trip, supervision, proposed itinerary, estimated cost, housing and funding sources. This plan must be submitted at least six weeks prior to the proposed date of the trip and before the trip is discussed with students or parents. Failure to have the trip approved by the Board prior to contact with students or parents will result in the trip being disapproved.
2. If students are housed in private homes, they are to be assigned in those homes in pairs or in threes. If any transportation such as to and from a private home is provided by private automobile, such arrangements must be noted on a form signed by the parents that gives permission for the student to travel in these private automobiles.

3. The proposal should be submitted to the Board for approval at least four weeks prior to the date of the trip.
4. The approval of the trip will depend on the amount of school time lost, value of the learning objectives, and planning, organization and supervision of the trip.

Out-of-State Trips

While the District recognizes the importance and value of some out-of-state trips, it also recognizes the necessity of funding the regular and basic instructional programs first. The District believes that, in general, out-of-state trips for organized clubs and activities should not be paid from District funds. Groups may elect to participate in fund-raisers that, with individual student contributions, will cover costs. The District does not fund the attendance of individual students at any out-of-state activity.

Exceptions to the above will be as follows:

1. When a group, individual or organization submits through the regular budget building process, a request for an out-of-state trip, that request will be given consideration as for any other budget item.
2. When an activity group or school club is, through local competition, able to qualify for out-of-state competition, and when there's no possible method that the group could, due to time constraints, raise funds, that activity may be funded from the general fund budget.

The following will be considered in determining the approval of out-of-state trips:

Whether the trip:

- ... is an extension of the academic program or is solely extra-curricular in nature
- ... is the result of successful competition at the local or state level
- ... is a logical stepping stone of local competition
- ... is something directly related to the instructional process
- ... causes minimal loss of school time
- ... costs are within available budgets

Guest Speakers

The District encourages the extension of instructional experiences through the use of guest speakers. A sound education requires that students face issues and gain access to divergent points of view.

The District establishes the following procedures for the approval of the use of a guest speaker. When an invited speaker expresses opinions that are partisan or considered controversial by a large portion of the community, the school shall provide for the presentation of opposing views.

When a teacher believes that a guest speaker will contribute to the curriculum by helping to achieve the goals and objectives of the course, the staff member will follow the procedure set out below:

1. At least two days prior to the proposed visit, the teacher will notify the Supervising Teacher or the Principal of the name of the proposed speaker, how the speaker's topic will relate to the curriculum and the proposed date of the visit.
2. In the event the speaker's topic is determined to be controversial, the teacher will notify students beforehand that any student who wishes not to attend the presentation will have an alternative assignment.
3. The teacher will register the guest speaker on the day he/she speaks.
4. Approval of a guest speaker will be exercised in a manner consistent with the principles of free inquiry and expression.
5. If the Supervising Teacher or Principal has reason to believe that the appearance of the guest speaker would not contribute to the curriculum or would be harmful to the students, he/she may deny the appearance of the guest speaker. If the teacher disagrees with the denial, he/she may appeal the decision to the Board.

Contests for Students

Contests may be made available to students by outside organizations through the schools, subject to certain limitations. The Supervising Teacher or Principal shall determine that the contest is not in conflict with nor will it diminish the primary educational aims of the schools and that it meets the needs and interests of students.

A state or local contest in which students participate shall be:

1. One that supplements and does not interfere with the regular school program.
2. One that is beneficial to youth in education, civic, social or ethical development.
3. One that makes it possible for individual students to work out contributions by their own efforts and does not invite dishonest collaboration.
4. One whose subject is not commercial, controversial, sectarian or concerned with propaganda. It must emphasize high moral standards, good citizenship and intellectual competence.

Academic Freedom and Controversial Issues**Academic Freedom**

The Board encourages and supports the concept of academic freedom, recognizing it as a necessary condition to aid in maintaining an environment conducive to learning and the free exchange of ideas and information.

In the study or discussion of controversial issues or materials, however, the Board directs the teaching staff to take into account the following criteria:

1. Relative maturity of students;
2. District philosophy of education;
3. Community standards, morals and values;
4. Necessity for a balanced presentation; and,
5. Necessity to seek prior Board counsel and guidance in such matters.

Controversial Issues

The District shall offer courses of study that will afford learning experiences appropriate to the level of student understanding. The instructional program shall respect the right of students to face issues, to have free access to information, to study under teachers in situations free from prejudice, and to form, hold, and express their own opinions without personal prejudice or discrimination.

Teachers shall guide discussions and procedures with thoroughness and objectivity to acquaint students with the need to recognize opposing viewpoints, importance of fact, value of good judgment, and the virtue of respect for conflicting opinions.

Religious Beliefs and School**Student Religious Activity at School**

In keeping with the United States and Montana constitutions and judicial decisions, Alder Public Schools may not support religion or endorse religious activity. At the same time, the District may not prohibit private religious expression by students. The purpose of this policy is to provide direction to students and staff members about the application of these principles to student religious activity at school.

Student Prayer and Discussion

Students may pray individually or in groups and discuss their religious views with other students, as long as they are not disruptive or coercive. The right to engage in voluntary prayer does not include the right to have a captive audience listen, to harass other students, or to force them to participate. Students may pray quietly in the classroom, except when they are expected to be involved in classroom instruction or activities.

Student Religious Expression and Assignments

Students may express their individual religious beliefs in reports, tests, homework, and projects. Staff members should judge their work by ordinary academic standards, including substance, relevance, appearance, composition, and grammar. Student religious expression should neither be favored nor penalized.

Staff Members

Staff members are representatives of the District and must "navigate the narrow channel between impairing intellectual inquiry and propagating a religious creed." They may not encourage, discourage, persuade, dissuade, sponsor, participate in, or discriminate against a religious activity or an activity because of its religious content. They must remain officially neutral toward religious expression.

Religion in the Curriculum

Staff members may teach students about religion in history, art, music, literature, and other subjects in which religious influence has been and continues to be felt. However, staff members may not teach religion or advocate religious doctrine or practice. The prohibition against teaching religion extends to curricular decisions that promote religion or religious beliefs. School programs, performances, and celebrations must serve an educational purpose. The inclusion of religious music, symbols, art, or writings is permitted if the religious content has an historical and/or independent educational purpose which contributes to the objectives of the approved curriculum. School programs, performances, and celebrations cannot promote, encourage, discourage, persuade, dissuade, or discriminate against a religion or religious activity and cannot be religious or religious-holiday oriented.

Release Time for Student Religious Instruction Release Time for Student Religious Instruction Release Time for Student Religious Instruction

If requested, the trustees of Alder School District shall determine the amount of time a pupil may be released from regular school attendance for the purpose of receiving religious instruction. A uniform policy will be set for all students.

Religious Holidays

Staff members may teach objectively about religious holidays and about the religious symbols, music, art, literature, and drama that accompany the holidays. They may celebrate the historical aspects of the holidays, but may not observe them as religious events.

Health Enhancement

Health, family life, and sex education, including information about parts of the body, reproduction, and related topics, shall be included in the instructional program as appropriate to the grade level and course of study. The instructional approach shall be developed after consultation with parents and other community representatives. Parents may ask to review the materials to be used and may request that their child be excluded from sex education class sessions without prejudice.

Chemical Dependency

In acknowledgment that chemical dependency is a treatable health problem, the District is committed to the development of a program that emphasizes prevention, intervention, aftercare support, and disciplinary actions. The District will work with the community to positively address the problem, and will be responsible for the development of this program within the existing legal, financial and policy restraints.

HIV/AIDS/STDs EDUCATION

The Board believes that Human Immunodeficiency Virus HIV/AIDS and other STDs instruction is most effective when integrated into a comprehensive health education program. Instruction shall be developmentally appropriate to the grade level of the students and shall occur in a systematic manner. The Board particularly desires that students receive proper education about HIV and other STDs before they reach the age when they may adopt behaviors that put them at risk of contracting these diseases.

In order for education about HIV and other STDs to be most effective, the Board shall require that faculty members who present this instruction receive continuing in-service training which includes appropriate teaching strategies and techniques. Other staff members not involved in direct instruction but who have contact with students shall receive basic information about HIV/AIDS and instruction in the use of universal precautions when dealing with body fluids.

Safety Program

As part of the Health Enhancement Program, the school has a responsibility for supervision of students while under the custodianship of the school system. In addition, the school has the responsibility to educate students in regard to home and school safety. For specific procedures to implement a safety education program for the District see Policies #9310.

Grading and Progress Reports

The District believes that the cooperation of school and home is a vital ingredient in the growth and education of the student and recognizes the responsibility to keep parents informed of student welfare and progress in school.

The issuance of grades and progress reports at regular intervals serves as the basis for continuous evaluation of the student's performance and determining changes that should be made to effect improvement. These reports shall be designed to provide information that will be helpful to the student, teacher, counselor and parent.

Report cards will be sent home every nine weeks. These reports will include information relative to the student's academic achievement, days absent, social behavior and attitudes toward school. In addition, parent and teacher conferences will be held once each year for more in depth discussions.

In the first and second grades, "S" will be used to indicate satisfactory performance. "U" will indicate unsatisfactory performance. In the third through ____ grades, letter grades of A, B, C, D and F will be given in all subject areas with:

- A = 90-100
- B = 80-90
- C = 70-80
- D = 60-70
- F = 59 or Below

Plus and minus may be used to show the grades of achievement of each letter grade.

Teachers are encouraged to write additional comments amplifying grades given.

These grades will indicate academic performance only. In addition, conduct and effort grades will be reported quarterly. These grades will reflect the teacher's judgment of the extent to which the student has performed to school expectations as well as to how the student has performed to his/her academic ability. Attendance will also be reported quarterly.

Grades are given as a system of reporting student progress and this policy should be reviewed to reflect knowledge of how students learn. Staff members, parents and teachers shall be involved.

Promotion/Retention

The District recognizes that students of the same age are at many intellectual and developmental levels and that these differences are a normal part of human development. Because of these differences, the administration and teaching staff are directed to make every effort to develop curricula and programs that meet the individual and unique needs of all students and allow them to remain with their age cohorts.

While the research on retention as an instructional strategy is generally very negative, there may on occasion be cases where retention may be warranted. The staff is directed to develop procedures and programs to reduce retentions to a minimum and to ensure that students who are retained have a high likelihood of benefiting from that retention.

If the decision is made to retain, then the child study team must consider constructive support and alternative programs as part of their recommendation. Such support programs as Title I, special education, counseling, peer tutoring, Indian education tutoring, use of aides or adult volunteers, college field experience personnel, rescheduling (different teacher, different approach) and extended time (before school, after school, recesses, etc) are feasible alternatives for assisting the child and must be considered in the decision.

If a parent insists on the child being retained, a notice will be placed in the child's file that the retention was a parent decision and not recommended by the school.

Homework

The District believes that homework is a constructive tool in the teaching/learning process when geared to the needs and abilities of students. Purposeful assignments not only enhance student achievement, but also develop self-discipline and associated good working habits. As an extension of the classroom, homework must be planned and organized, must be viewed as purposeful to the students; and should be evaluated and returned to students in a timely manner.

Teachers may give homework to students to aid in the student's educational development. Homework should be an application or adaptation of a classroom experience, and should not be assigned for disciplinary purposes.

Homework may be assigned for one or more of the following purposes:

1. Practice: To help students to master specific skills which have been presented in class.
2. Preparation: To help students gain the maximum benefits from future lessons.
3. Extension: To provide students with opportunities to transfer specific skills or concepts to new situations.
4. Creativity: To require students to integrate many skills and concepts in order to produce original responses.

The purposes of homework assignments, the basis for evaluating the work performed and the guidelines and/or rules should be made clear to the student at the time of the assignment.

Child Abuse and Neglect Reporting Policy**1. Basic Policy**

The Board of Alder School District supports those sections of Montana law concerned with the reporting of suspected cases of child abuse and neglect perpetrated by persons within or outside District employment.

Realizing the seriousness of child abuse and neglect, this Board requires compliance with Montana law by all schoolteachers and other employees.

2. Laws and Definitions

Montana laws pertaining to reporting and investigating child abuse and neglect are found in Title 41, Chapter 3, Part 2, and MCA. This law provides that all records concerning the reporting of child abuse or neglect are confidential and grant immunity from any liability, civil or criminal, that might otherwise be incurred or imposed, unless the person acted in bad faith or with malicious purpose.

An "abused or neglected child" is a child whose normal physical or mental health or welfare is harmed or threatened with harm by the acts or omissions of his/her parent or other persons responsible for his/her welfare.

"Harm to a child's health or welfare" means the harm that occurs whenever the parent or other person responsible for the child's welfare:

- a. Inflicts or allows to be inflicted upon the child physical or mental injury.
- b. Commits or allows to be committed sexual abuse or exploitation of the child;
- c. Causes failure to thrive or otherwise fails to supply the child with adequate food or fails to supply clothing, shelter, education or health care, though financially able to do so or offered financial or other reasonable means to do so.
- d. Abandons the child by leaving him/her under circumstances that make reasonable the belief that the parent or other parent or other person does not intend to resume care of the child in the future or by willfully surrendering physical custody for a period of 6 months and during that period does not manifest to the child and the person having physical custody of the child a firm intention to resume physical custody or to make permanent legal arrangements for the care of the child; or,
- e. Is unknown and has been unknown for a period of 90 days and reasonable efforts to identify and locate the parents have failed. §41-3-102, MCA.

3. Reporting

When a teacher or other employee suspects child abuse, sexual child abuse or neglect, that person must promptly notify the Department of Family Service, or its local affiliate. It is the individual's obligation to see that the situation is reported (reporting concerns to the Supervising Teacher or County Superintendent does not satisfy the reporting requirement). Required information to be reported includes:

- a. The names and addresses of the child and the parents or other persons responsible for the child's care;
- b. To the extent known, the child's age, the nature and extent of the child's injuries, including any violence of previous injuries;
- c. Any other information the reporter believes might be helpful in establishing the cause of the injuries or showing the willful neglect and the identity of the person or persons responsible; and,
- d. The facts that led the person reporting to believe that the child has suffered injury or injuries or willful neglect.

4. Penalty for Failure to Report

Any of the District's employees who fail to report to the Department of Health and Human Services known or suspected cases of child abuse or neglect, or who prevent another person from reasonably doing so, may be civilly liable for the damages proximately caused by such failure or prevention, and are guilty of a misdemeanor (§ 41-3-207, MCA). These persons will also be subject to disciplinary action, including discharge, by the Board of Trustees.

5. Remedial Action and Prevention

The District will take immediate action to protect victims of alleged child abuse or sexual child abuse. The District will also provide whatever remedial action, education, or training is necessary for students, staff, teachers and parents following any incidents of sexual child abuse within the schools of the District. The District will provide annual public awareness programs, parent and teacher/staff training, and programs for students on the prevention of child abuse and neglect.

Child Custodial Agreement

Confrontations that occur as parents come to school to enact a change in custody arrangements for their child are disruptive to the school environment as well as upsetting to the child involved. On many occasions the child is unaware of the impending change and is unsettled because of the sudden uprooting from a familiar environment. Occasionally, the parent is a disturbing influence in the school setting. Unfortunately, if a law enforcement officer is involved, it heightens the anxiety of the child involved and other students in the school. This policy will help to alleviate this disruption to the school environment. It is important to emphasize that whenever possible every effort should be made to settle custody disputes outside of the school setting.

1. Parents who come to the school or call the school with information that a child is leaving because of a change in custodial arrangements should be informed that the Madison County Sheriff's Department oversees the process. The parent will be directed to go to the Sheriff's office.
2. The Sheriff or law enforcement officer will check the custodial decree and also check to see if there is any pertinent restraining orders.
3. If the Officer-in-Charge suspects that a confrontation may occur at the school, he will call the school. After receiving this call, the Supervising Teacher will determine if the child should be removed from the classroom and placed in a safe location until a decision is made.
4. The Sheriff or Officer-in-Charge will notify the school about the custodial change. If the circumstances are questionable, the Supervising Teacher will "call back" to verify that the call came from the Sheriff's office.
5. Whenever possible, the officer will attempt to work around the child's school schedule in order to minimize the disruption for the child, the classroom teacher and students. The Sheriff's Department will decide on the appropriateness of calling the parent or guardian who was the former caretaker of the child.
6. If a custody change is to be made during the school day and the child will be leaving the District, the school Supervising Teacher will be responsible for removing the child from the classroom and/or school. The child may be taken to a neutral location (agreed upon by the deputy and the Supervising Teacher) for "pick up" by the custodial parent.

2. The date of completion of the work of the eighth grade.

Parents shall enroll the student unless the student is:

1. Provided with supervised correspondence or home study;
2. Excused because of determination by a district judge that attendance is not in the best interests of the child;
3. Enrolled in a non-public or home school.
4. Enrolled in a school of another district or state under the tuition provisions of this title.

Enrollment and Attendance RecordsAverage Number Belonging

Average Number Belonging (ANB) is the enrollment measure used for the State Foundation Program calculations as defined in § 20-9-311, MCA. The ANB of one year is based on the attendance records of the preceding year. Funding for districts is based on ANB, which is based on “aggregate hours” per year and must be accurate. “Aggregate hours” means the hours of pupil instruction for which a school course or program is offered or for which a pupil is enrolled.

For a child to be counted for ANB purposes:

- a) The child must meet the definition of pupil as found in § 20-1-101(11), MCA;
- b) Attending 180 to 359 aggregate hours = One-quarter time enrollment

Homebound Students

Students who are receiving instructional services, who were in the education program and, due to medical reasons certified by a medical doctor, are unable to be present for pupil instruction, may be counted as enrolled for ANB purposes, if the student:

- a) Is enrolled and is currently receiving organized and supervised pupil instruction;
- b) Is in a home or facility which does not offer a regular educational program; and
- c) Has instructional costs during the absence, which are financed by the District’s general fund.

If a homebound student does not meet the criteria set forth above, the District may request a variance

If a homebound student does not meet the criteria set forth above, the District may request a variance through the Office of Public Instruction, for consideration of the student in the enrollment count for ANB purposes beyond the tenth (10th) day of absence.

Attendance Accounting

Days present and absent for every student are to be recorded in each building, for the purpose of informing parents of a student's attendance record.

On the first (1st) Monday in October and the first (1st) Monday in February, the number of all enrolled students (whether present or absent) by grade level and class will be recorded on the forms provided by the District. Attendance Policy - Grades K-8

The District is committed to the tenet that every student should attend school every day; and that poor attendance results, not only in a loss of valuable instruction time, but creates lifelong behavior patterns which could dramatically influence a student's career success.

Regular attendance and promptness are expected and essential for success in school. The law of the State of Montana, Section 20-5-103, MCA, specifies the requirements for compulsory attendance in school. It requires parents and guardians who are responsible for the care of school-age children to enforce attendance to the school in which the child is enrolled.

The District believes that regular attendance is primarily the responsibility of parents and, to a lesser extent, students, depending on their age.

The District recognizes the importance of monitoring all children's attendance and is committed to taking whatever action is necessary, up to and including legal action, to assure that students attend school regularly.

Definitions

Truancy - Absences that take place without the approval of the parent and/or Supervising Teacher.

Excused Absence - Generally, absences will be considered reasonable in cases of illness, bereavement, family vacations, situations resulting from "acts of God" and other emergencies. Other absences will be considered unexcused.

Excessive Absences - Students who miss 10 days of school per semester are considered excessively absent.

Tardiness - All tardies that extend beyond 9:00 a.m. or 1:15 p.m. will be considered a .5 absence.

Reporting Student Absences

When a student must be absent for illness or other unforeseen emergencies, parents must inform the school of the reasons for the student's absence by 9:00 a.m. on the day of the absence. If the student is not present, and the parent has not notified the school of the absence, the school will attempt to call the parent by 11:00 a.m. the same day. The fact that the school will attempt to call the parent does not relieve the parent of the responsibility to call the school to report their child's absence.

Excused Absences and Tardies

In cases where doubt occurs concerning the validity of an excuse, the Supervising Teacher may require verification of medical conditions contributing to the absence. In the event the Supervising Teacher determines an absence or tardiness is unnecessary, the absence will be considered unexcused. A permanent record will also be maintained of student absences and tardies.

Absence/Student Performance

Once the teacher observes that the student's absences or tardiness are having an adverse effect on the student's progress, he/she will make parental contact to express concern and to explain the problem. If the absences have been unavoidable because of illness, bereavement or other reasons, the teacher will request a meeting to develop a plan so that the absenteeism has minimal effect on the student's academic success. In the event that reasons for absences have been questionable, the teacher will explain that the student will not get credit for work missed during those unexcused absences. Additionally, the teacher will not be required to provide make-up work. Absences and excessive tardiness may be a significant factor in decision of retention.

SUMMARY OF RESPONSIBILITIES**Students:**

- To attend class regularly, only missing a class when a parent is aware that the absence is due to illness or other emergency;
- To be in class when the tardy bell rings;
- To be knowledgeable of the make-up policy in his/her classes;
- To obtain the make-up work and needed instructional help upon returning after an absence;
- To schedule all medical and other appointments outside of school time whenever possible;

Parents or Legal Guardian:

- To instill in their student the importance of attendance;
- To insure to the best of their ability that their student is in attendance regularly;
- To avoid taking the student out of school for appointments, trips and vacations;
- To call the school (preferably on the day of the absence) when they are aware that their student is absent;
- To work with teachers to promote good attendance patterns for their student.

Teachers:

- To keep daily records of absences and tardies;
- To make parental contracts regarding excessive absences or tardies;
- To refer the student to the Supervising Teacher if the parental contact does not solve the problem;
- To communicate in writing to the student, parent or legal guardian, : (a) the make-up procedure for the class and (b) the manner in which the grade for the class will be earned.
- To provide opportunities for make-up work when the student is absent unless the absence is due to suspension or truancy.

Supervising Teacher:

- To take appropriate disciplinary measures when a student with excessive absences or tardies has been reported by a teacher;
- To monitor attendance reports identifying and conferencing with students whose attendance patterns are cause for concern;
- To work closely with teachers and parents to help the student to develop positive attendance patterns.

The Superintendent or designee is hereby given the authority to recommend to the Board any student's admission in accordance with this policy.

All students whose legal residence is outside of the District and who do not qualify for mandatory attendance will be denied enrollment, with the following exceptions:

The Board will not admit any student prior to viewing the student's records from the student's previous school districts.

The District has the option of accepting a nonresident student who does not meet the criteria set forth herein, if the student agrees to special conditions of admission, as set forth by the District.

Every student who attends the District as a nonresident student must re-apply for admission. Admission in one school year does not imply or guarantee admission in subsequent years.

The District will not admit nonresident students, when to do so would require the hiring of additional staff, the provision of educational services not currently provided in the school, or the crowding of existing classes.

All resident students who become nonresidents due to a move from the District by their parent/guardians may continue attendance for the semester, barring registration in another District. At the completion of the semester, the student must apply as a nonresident student.

The Board reserves the right to charge tuition for nonresident students, per statute.

Uniform Grievance Procedure

All individuals should use this grievance procedure if they believe that the Board, its employees or agents have violated their rights guaranteed by the State or Federal Constitution, State or Federal statute, or Board policy.

This District will endeavor to respond to and resolve complaints without resorting to this grievance procedure and, if a complaint is filed, to address the complaint promptly and equitably. The right of a person to a prompt and equitable resolution of the complaint filed hereunder shall not be impaired by the person's pursuit of other remedies. Use of this grievance procedure is not a prerequisite to pursuit of other remedies, and use of this grievance procedure does not extend any filing deadline related to the pursuit of other remedies.

1. Level 1: Informal

An informal meeting with the parties and the Teacher can solve many problems. An individual with a complaint is encouraged to first discuss it with the teacher involved with the objective of resolving the matter promptly and informally. An exception is that complaints of sexual harassment should be discussed with the first level that is not involved in the alleged harassment.

2. Level 2: Supervising Teacher or Principal

If the complaint is not resolved at Level 1, the grievant may file a written grievance stating: 1) the nature of the grievance, 2) the remedy requested, and 3) be signed and dated by the grievant. The Level 2 written grievance must be filed with the Coordinator within sixty (60) days of the event or incident, or from the date the grievant could reasonably become aware of such occurrence.

If the complaint alleges a violation of Board policy or procedure, the Supervising Teacher or Principal shall investigate and attempt to resolve the complaint. If either party is not satisfied with the decision, the grievance may be advanced to Level 3 by requesting in writing that the Board review the decision. This request must be submitted to the Board within fifteen (15) days of the decision.

If the complaint alleges a violation of Title IX, Title II, Section 504 of the Rehabilitation Act, or sexual harassment, the Principal shall turn the complaint over to the Nondiscrimination Coordinator who shall investigate the complaint. The District has appointed a Nondiscrimination Coordinator (may be the County Superintendent) to assist in the handling of discrimination complaints. The Coordinator will complete the investigation and file the report with the Board within thirty (30) days after receipt of the written grievance. The Coordinator may hire an outside investigator if necessary. If the Board of Trustees agrees with the recommendation of the Coordinator, the recommendation will be implemented. If the Board rejects the recommendations of the Coordinator, and/or either party is not satisfied with the recommendation from Level 2, either party may make a written appeal within fifteen (15) days of receiving the report of the Coordinator to the Board for a hearing.

The Coordinator will complete the investigation and file the report with the Board of Trustees within thirty (30) days after receipt of the written grievance. The Coordinator will send a copy of the report to the grievant.

If the Board agrees with the recommendation of the Coordinator, the recommendation will be implemented.

Level 3: The Board of Trustees

If the Board of Trustees rejects the recommendation of the Coordinator, and/or either party is not satisfied with the recommendations from Level 2, either party may make a written appeal within fifteen (15) days of receiving the report of the Coordinator to the Board for a full contested case hearing. On receipt of the written appeal, the matter shall be placed on the agenda of the Board for consideration not later than the next regularly scheduled meeting. A decision shall be made and reported in writing to all parties within thirty (30) days of that meeting. The decision of the Board will be final, unless appealed within the period provided by law.

Level 4: County Superintendent

If the case falls within the jurisdiction of the County Superintendent of Schools, the decision of the Board of Trustees may be appealed to the County Superintendent by filing a written appeal within thirty (30) days after the final decision of the Board pursuant to the Rules of School Controversy (10.6.103, et seq. Freedom of Expression

The free expression of student opinion is an important part of education in a democratic society. Students' verbal and written expression of opinion on school premises is to be encouraged so long as it does not substantially disrupt the operation of the school.

The Supervising Teacher or Principal shall develop guidelines assuring that students are able to enjoy free expression of opinion while maintaining orderly conduct of the school.

Students shall enjoy the privilege of free verbal and written expression providing such expressions are not obscene, libelous or profane; do not violate an individual's rights to privacy; or do not advocate violation of school rules. The Supervising Teacher or Principal shall have the authority to monitor student verbal and written expression. Students who violate the standards for verbal and written expression shall be subject to corrective action or punishment.

Student Publications

Student publications produced as part of the school's curriculum or with the support of student body funds are intended to serve both as vehicles for instruction and student communications. They are operated and substantively financed by the student body and the District.

Material appearing in such publications should reflect all areas of student interest, including topics about which there may be controversy and dissent. Controversial issues may be presented provided they are treated in depth and represent a variety of viewpoints. Such materials may not be libelous, obscene or profane, nor may they cause a substantial disruption of the school, invade the privacy rights of others, demean any race, religion, gender, or ethnic group, or advocate the violation of the law. Students are reminded that their appearance significantly affects the way others respond to them. Matters of dress remain the primary responsibility of students, in consultation with their parents. Student dress shall not be regulated except when there is a reasonable expectation that:

1. A health or safety hazard may be created by the student's dress or appearance;

The Supervising Teacher or Principal shall monitor student dress in school and at activities in accordance with these policies.

If the student's dress or grooming violates the provision of this or Policy #3220, his/her Supervising Teacher or Principal shall request the student to make appropriate corrections. If the student refuses, the Supervising Teacher or Principal shall notify the parents and request that the parent and the student make the appropriate necessary corrections. If both the student and the parent refuse, the Supervising Teacher or Principal shall take appropriate action.

Hazing, Harassment/Intimidation/Bullying/Menacing of Students

Hazing, harassment, intimidation, bullying, and/or menacing of students by students, staff, or third parties is prohibited and shall not be tolerated.

The terms “hazing,” “harassment,” “intimidating,” “bullying” and “menacing” include conduct that has the effect of humiliation, embarrassment, or discomfort. Examples of harassment include, but are not limited to, crude jokes or pictures, teasing related to perceived vulnerabilities, spreading rumors related to them, name-calling and physical abuse. Such behavior may be aimed at victims because of perceived vulnerabilities which often include, but are not limited to race, color, religion, ancestry, national origin, gender, sexual orientation, culture, social origin or condition, political affiliation, mental, physical or sensory disability, and other attributes or abilities.

Students who believe that they may have been harassed or intimidated should contact a counselor, teacher or Title IX coordinator who will assist them in filing a complaint and keep their identity confidential. Supervisors or teachers who knowingly condone or fail to report or assist a student to take action to remedy such behavior of harassment or intimidation may themselves be subject to discipline.

An employee, fellow student or third party who engages in such behavior is subject to discipline. For employees in violation of this policy the discipline could include dismissal. For students the discipline could include expulsion. For third parties whose behavior is in violation of this policy, appropriate sanctions will be determined and imposed by the Board. Individuals may also be referred to law enforcement officials.

Students and parents who believe they have been harassed should report their concerns to the Principal, Supervising Teacher or the County Superintendent of School. Teachers or staff who witness bullying should intervene and report continued problems to the above listed officials. No retaliation or reprisals will be made against any person who reports bullying incidents and any one who does so will be subject to discipline him/herself. The reported incident will be promptly investigated.

The District will make every effort to insure that employees or students accused under the provisions of this policy are given appropriate opportunity to defend themselves against such accusations. Nevertheless, where there is reasonable cause to believe that harassment has taken place, appropriate disciplinary action will be taken.

An individual with a complaint alleging a violation of this policy shall follow the Uniform Grievance Policy.

The Board will strive to provide a positive, productive learning and working environment for all who are in its school.

Student Privacy and Searches and Seizure**Student Privacy**

The right to privacy is a fundamental tenet of human liberty. Staff shall take particular care to respect students' privacy. The Supervising Teacher or Principal shall have the authority to conduct student searches. He/she shall do so only upon reasonable suspicion and in the manner prescribed by District policy.

A student shall be free from searches of his/her clothing and other personal property unless there is reasonable suspicion to believe that something is concealed that may be of immediate danger to the student or to other students. School officials shall request the student to remove all items from pockets or other personal effects. Discipline and Appeals

A teacher or Supervising Teacher or Principal has the authority to hold a pupil to strict accountability for disorderly conduct in school, on the way to or from school, or during intermission or recess.

No person who is employed or engaged by the School District may inflict or cause to be inflicted corporal punishment on a pupil.

The methods employed in enforcing the rules of the school involve professional judgment. Such judgment should be:

1. Consistent from day to day and student to student.
2. Balanced against the severity of the misconduct.
3. Appropriate to the student's nature and prior behavior.
4. Fair to the student, parent, other students and others, and
5. Effective.

Since these criteria may be in conflict, established procedures must be followed in correcting misbehavior. Appeal procedures have been established in order to provide for an opportunity for every corrective action or punishment to be reviewed by someone in authority and to instill confidence among students and parents as to the essential fairness of staff.

In order to develop an environment conducive to learning, the principal shall confer with certificated staff at least once per year to develop and/or review rules of conduct to be employed in the school and corrective actions and punishment that may be employed in the event of rule infractions.

A teacher shall have the authority to exclude a student from his/her classroom for all or any part of the period or until the teacher has conferred with the Supervising Teacher or Principal, whichever occurs first. Prior to excluding a student, except in emergency circumstances, the teacher shall have attempted one or more corrective actions.

Corrective Actions and Punishment

All students shall submit to the reasonable rules of the District. Refusal to comply with written rules and regulations established for the governing of the school shall constitute sufficient cause for discipline, suspension, or expulsion. Corrective action and/or punishment for misconduct must reflect good faith effort on the part of the staff.

For the purposes of the District's policies relating to corrective action or punishment:

1. Discipline constitutes corrective action or punishment, including brief exclusions from a class for not more than the remainder of the class period, including exclusion from any other type of activity conducted by or for the District. Discipline shall not adversely affect academic grades as long as all required work is performed.
2. Suspension is the removal from school or individual classes for a specific period of time, after which the student has the right to return. The Principal or Supervising Teacher has the right to suspend.
3. Expulsion is the removal from school. Only the Board has the authority to expel.

Except in extreme cases, students will not be expelled unless other forms of corrective action or punishment have failed, or unless there is good reason to believe that other forms of corrective action or punishment would fail if employed. Suspensions or expulsions shall be used only for instances of serious student misconduct.

Students with disabilities may also be suspended under these same rules if the suspension will not constitute a change of placement. On or before a student with a disabling condition accrues ten (10) days of suspension, the Child Study Team who has knowledge of the student's disabling condition will determine if there is causal relationship between the disabling condition and the student's misconduct. If such a relationship exists, the student's educational placement may not be changed without parental approval or a court order, pending a due process hearing under IDEA.

Before a recommendation on the expulsion of a disabled student is submitted to the Board, the Child Study Team must meet to determine if there is a causal relationship between the disabling condition and the student's misconduct.

Students with disabilities may also be suspended under these same rules if the suspension will not constitute a change in placement. On or before a student with a disabling condition accrues ten (10) days of suspension, the Child Study Team who has knowledge of the student's disabling condition will determine if there is causal relationship between the disabling condition and the student's misconduct. If such a relationship exists, the student's educational placement may not be changed without parental approval or a court order, pending a due process hearing under IDEA.

Before a recommendation on the expulsion of a disabled student is submitted to the Board, the Child Study Team must meet to determine if there is a causal relationship between the disabling condition and the student's misconduct. The Board shall consult legal counsel before expelling any disabled student.

When a disabled student is acting in such a way that s/he poses a danger to himself/herself or to another student or property, or substantially disrupts his/her educational program or that of other students, an emergency suspension may take place. Emergency suspensions may not last longer than ten (10) school days. The Special Educational Co-operative shall convene the Child Study Team for reviewing the student's record before the student is readmitted to school and no later than the tenth (10) day of suspension.

No student shall be disciplined, suspended, or expelled in any manner for any act not related to the orderly operation of the school or school-sponsored activities or any other aspect of the educational process.

Reason for Disciplinary Action

Disciplinary action may be taken against any student guilty of gross disobedience or misconduct, including but not limited to:

- Using, possessing, distributing, purchasing, or selling tobacco products, including alternative nicotine and vapor products as defined in 16-11-302, MCA.
- Using, possessing, distributing, purchasing, or selling alcoholic beverages, including powdered alcohol. Students who are under the influence are not permitted to attend school and are treated as though they had alcohol in their possession;
- Using, possessing, distributing, purchasing, or selling illegal drugs or controlled substances, look-alike drugs and drug paraphernalia. Students who are under the influence are not permitted to attend school and are treated as though they had drugs in their possession;
- Using, possessing, controlling, or transferring a weapon are in violation of the "Possession of Weapons in a School Building" section of this policy;
- Using, possessing, controlling, or transferring any object that reasonably could be considered or used as a weapon;
- Disobeying directives from staff members or school officials and/or rules and regulations governing student conduct;
- Using violence, force, noise, coercion, threats, intimidation, fear, or other comparable conduct toward anyone or urging other students to engage in such conduct;
- Causing or attempting to cause damage to, or stealing or attempting to steal, school property or another person's property;
- Engaging in any activity that constitutes an interference with school purposes or an educational function or any disruptive activity;
- The forging of any signature, or the making of any false entry, or the authorization of any document used or intended to be used in connection with the operation of the school.

These grounds for disciplinary action apply whenever the student's conduct is reasonably related to school or school activities, but not limited to:

- On, or within sight of, school grounds before, during or after school hours or at any other time when the school is being used by a school group;
- Off school grounds at a school sponsored activity or event, or any activity or event which bears a reasonable relationship to school;
- Traveling to and from school or a school activity, function or event; or
- Anywhere, if the conduct may reasonably be considered to be a threat or an attempted intimidation of a staff member, or an interference with school purposes or an educational function.

Disciplinary Measures

Disciplinary measures include, but are not limited to: loss of privileges, loss of bus privileges, and restitution for damages to school property, detention, suspension, expulsion, and notification to juvenile authorities and/or police.

Weapon-Free Schools

Any person who possesses, controls, carries or stores a weapon in a school building, except as provided below, shall be referred to law enforcement for immediate prosecution. In addition, a parent or guardian of any minor violating this policy shall also be referred for possible prosecution on the grounds of allowing the minor to possess, carry or store a weapon in a school building.

For the purposes of this policy only, the following terms are defined: "school building" shall be defined as all buildings owned or leased by a local school district that are used for instruction or for student activities. "Weapon" shall be defined as any type of firearm, defined as provided in 18 USC 921, a knife with a blade 4 or more inches in length, a sword, a straight razor, a throwing star, nun-chucks or brass or other metal knuckles.

The Board may grant persons and entities advance permission to possess, carry, or store a weapon in a school building. All persons who wish to possess, carry or store a weapon in a school building shall present this request to the Board in a regular meeting. It is solely within the Board's discretion whether to allow a person to possess, carry, or store a weapon in a school building.

This policy does not apply to law enforcement personnel.

Gun-Free Schools

A student who uses, possesses, controls, or transfers a firearm, or any object that can reasonably be considered, or looks like, a firearm, onto school property, except as provided below, shall be expelled for a period of not less than one calendar year unless modified by the Board of Trustees. The Board, however, may modify the expulsion period on a case-by-case basis. The Supervising Teacher or Principal shall notify the criminal justice or juvenile delinquency system of any student who brings a firearm to school.

If a student violating this policy is identified as disabled either under the IDEA or Section 504, a determination must be made whether the student's conduct is related to the disability. If the violation of the policy is due to a disability recognized by the IDEA or Section 504, lawful procedures for changes in placement must be followed.

Any student subject to expulsion shall be entitled to a hearing before the Board in accordance with 20-5-202, MCA. Nothing in this policy shall prevent the Board from making an alternative placement for a student in lieu of expulsion provided that such placement removes the student from the regular school program.

The District shall keep a record of all students disciplined under this policy and the circumstances surrounding their discipline, including the number of students expelled and the types of weapons involved. This information shall be provided to local law enforcement authorities and other governmental agencies as required by law.

Appeal Process for Disciplinary Action

Any parent or student who is aggrieved by the imposition of discipline shall have the right to an informal conference with the Supervising Teacher for the purpose of resolving the grievance. At such conference, the student and parent shall be subject to questioning by the Supervising Teacher and shall be entitled to question staff involved in the matter being grieved.

A student may be removed immediately from a class or subject by a teacher without other forms of corrective action and sent to the Supervising Teacher or Principal, without first attempting corrective action, provided that the teacher has good and sufficient reason to believe that the student's presence poses an immediate and continuing threat of substantial disruption of the class, subject or educational process of the student's school. Student Immunization

In order to safeguard the school community from the spread of certain communicable diseases and in recognition that prevention is a means of combating the spread of disease, the Board requires all students to present evidence of their having been immunized against the following diseases: diphtheria, pertussis (whooping cough), poliomyelitis, measles (rubella), mumps, and tetanus. As of October 1, 2015, all students grades 7 -12 must have an additional DTaP immunization. All students must have received 2 doses of the varicella (chicken pox) vaccine. Haemophilus influenza type "b" immunization is required for students under the age of five.

Upon initial enrollment, an immunization status form, prescribed by the Montana Department of Health and Environmental Sciences, shall be completed by the student's parent or guardian. The certificate shall be made a part of the student's permanent record.

A pupil who transfers into the District from another district may photocopy immunization records in the possession of the school of origin. The District will accept the photocopy as evidence of immunization. The original records must be presented within thirty (30) days.

The Board may grant exemptions from one or more vaccines for medical reasons upon certification by a physician indicating the specific nature and probable duration of the medical condition for not administering the vaccine(s). Exemptions for religious reasons must be filed annually. The statement for an exemption shall be maintained as part of the student's immunization record. The permanent file of students with exemptions shall be marked for easy identification should the Department of Health order that exempted students be excluded from school temporarily when the risk of contracting or transmitting a disease exists. Exclusion shall not exceed 30 calendar days.

The Board of Trustees may allow the commencement of attendance in school by a student who has not been immunized against each disease listed in § 20-5-403, MCA, if that student has received one or more doses of polio, measles (rubella), mumps, diphtheria, pertussis, and tetanus vaccine, except that pertussis vaccine is not required for a person 7 years of age or older.

The District shall exclude a student for noncompliance with the immunization laws and properly notify the parent or guardian. Administering Medicines to Students

Any school employee authorized in writing by the Board of Trustees:

1. May assist in the self-administration of any drug which may lawfully be sold over the counter without a prescription to a student in compliance with the written instructions if the student's parent or guardian consents in writing.
2. May assist in the self-administration of a prescription drug to a student in compliance with the written instructions of a practitioner, if the student's parent or guardian consents in writing.

No employee except a qualified health care professional may administer a drug or prescription drug to a pupil under this policy except in an emergency situation or following the dictates of this policy. Diagnosis and treatment of illness and the prescribing of drugs are never the responsibility of a school employee and should not be practiced by any school personnel.

Administering Medication

The Board will permit the administration of medication to students in its schools. Pursuant to the written authorization of a physician or dentist, as well as the written authorization of a parent or guardian, the school nurse, (who has successfully completed specific training in administration of medication) may administer medication to any student in the school or may delegate this task pursuant to Montana law.

Emergency Administration of Medication

In case of an anaphylactic reaction or the risk of such reaction, a school nurse or delegate may administer emergency oral and/or injectable medication to any student in need thereof on the school grounds, in the school building, or at a school function according to the standing order of the chief medical advisor or the student's private physician.

In the absence of a school nurse, the Supervising Teacher or Principal who is exempt from the nursing license requirement under 37-8-103(1)(c), MCA, if he/she has completed training in administration of medication, may give emergency medication to students orally or by injection. There must be on record a medically diagnosed allergic condition that would require prompt treatment to protect the student from serious harm or death.

Record of the medication administered will be entered in ink on an Individual Student Medication Record and filed in the student's cumulative health folder.

Self-Administration of Medication

Students who are able to self-administer specific medication may do so provided:

1. A physician or dentist provides a written order to self-administration of said medication.
2. There is written authorization for self-administration of medication from the student's parent or guardian.
3. The Supervising Teacher or Principal and appropriate teachers are informed that the student is self-administering prescribed medication.

Any school employee authorized in writing by the Board of Trustees may assist with self-administration of medications provided that only the following acts are used:

1. Verbal suggestions, prompting, reminding, gesturing, or providing a written guide for self-administering medications;
2. Handing a pre-filled, labeled medication holder, labeled unit dose container, syringe, or original marked, labeled container from the pharmacy to the student;
3. Opening the lid of the above container for the student;
4. Guiding the hand of the student to self-administer the medication;
5. Holding and assisting the student in drinking fluid to assist in the swallowing of oral medications.
6. Assisting with removal of a medication from a container for students with a physical disability, which prevents independence in the act.

Self-Administration of Asthma Inhalers and Epinephrine Pens

Students with allergies or asthma may be authorized to possess and self-administer emergency medication from the medication during the school day, at school sponsored events and on a school bus, by the Supervising Teacher or Principal in consultation with medical personnel. The student may do this if the following conditions have been met:

1. A written and signed authorization from the parent or guardian for self-administration of medication acknowledging that the school district or its employees are not liable for injury that results from the student self-administering the medication.
2. The student has the prior written approval of his/her primary health care provider which specifies the name and purpose of the medication, the prescribed dosage, frequency with which it may be administered, the circumstances that warrant its use and that the student has demonstrated the skill level necessary to use and administer the epinephrine pen or asthma inhaler.
3. The doctor provides documentation of a written treatment plan for managing asthma or anaphylaxis episodes of the pupil and for medication use by the student during the school hours.

A student's authorization to possess and self-medicate under these provisions shall be valid for the current school year only and must be renewed annually. The Supervising Teacher or the Principal may limit or revoke the student's authorization.

The school will keep backup medication in a predetermined location to which the student has access in the event of an emergency if the medication is provided by a parent or guardian.

Administration of Glucagons

The following backup medication has been provided for this student

For Completion by Parent or Guardian

As the parent/guardian of the above names student, I confirm that this student has been instructed by his/her health care provider on the proper use of this/these medication(s). He/she has demonstrated to me that he/she understands the proper use of this medication. He/she is physically, mentally, and behaviorally capable to assume this responsibility. Communicable Diseases

The District is required to provide educational services to all school age children who reside within its boundaries. Attendance at school may be denied to any child diagnosed as having a communicable disease that could make the child's attendance harmful to the welfare of other students. In the instance of diseases causing suppressed immunity, attendance may be denied to a child with suppressed immunity in order to protect the welfare of the child with suppressed immunity when others in the school have an infectious disease which, although not normally life threatening, could be life threatening to the child with suppressed immunity.

The Board recognizes that communicable diseases that may afflict students range from common childhood diseases, acute and short-term in nature, to chronic, life-threatening diseases such as human immunodeficiency virus (HIV) infection. This District shall rely on the advice of the public health and medical communities in assessing the risk of transmission of various communicable diseases to determine how best to protect the health of both students and staff.

Management of common communicable diseases will be in accordance with Montana Department of Health guidelines and communicable diseases control rules (16.28.101, MCA, et seq). A student who exhibits symptoms of a communicable disease that is readily transmitted in the school setting may be temporarily excluded from school attendance.

Students who complain of illness at school may be referred to the school nurse or other responsible person designated by the Board and may be sent home as soon as the parent or person designated on the student's emergency medical authorization form has been notified.

The District reserves the right to require a statement from the student's primary care provider authorizing the student's return to school. In all proceedings related to this policy, the District shall respect the student's right to privacy.

When information is received by a staff member or volunteer that a student is afflicted with a serious communicable disease, the staff member or volunteer shall promptly notify the school nurse or other responsible person designated by the Board to determine appropriate measures to protect student and staff health and safety.

The school nurse or other responsible person designated by the Board, after consultation with and on the advice of public health officials, shall determine which additional staff members, if any, have need to know of the affected student's condition.

Only those persons with direct responsibility for the care of the student or for determining appropriate educational accommodation will be informed of the specific nature of the condition if it is determined there is a need for such individuals to know this information due to the threat of the disease to others or the need to protect the child from other communicable diseases which may be life threatening to the child.

Parents of other children attending the school may be notified that their child has been exposed to a communicable disease without identifying the particular student who has the disease.

Note: For purposes of this policy, the term "communicable disease" refers to the diseases identified in 16.28.202, ARM, Reportable Diseases, with the exception of common colds and flu.

Emergency Treatment

The Board recognizes that schools are responsible for providing first aid or emergency treatment in case of sudden illness or injury to a student, but that further medical attention is the responsibility of the parent or guardian.

Each parent or guardian shall be requested to provide an emergency telephone number where the parent or designee of the parent can be reached.

When a student is injured, staff shall provide immediate care and attention until relieved by a superior, a nurse or a doctor. The Supervising Teacher or designated staff should immediately contact the parent so that the parent can arrange for care or treatment of the injured.

If a child develops symptoms of illness while at school, the responsible school officials shall do the following:

- a. Isolate the child immediately from other children in a room or area segregated for that purpose.
- b. Inform the parent or guardian as soon as possible about the illness and request him or her to pick up the child.
- c. Report each case of suspected communicable disease the same day by telephone to the local health authority, or as soon as possible thereafter if no contact can be made the same day.

In the event that the parent cannot be reached and in the judgment of the Supervising Teacher or Principal or person in charge immediate medical attention is required, the injured student may be taken directly to the hospital and treated by the physician on call. When the parent is located, he/she may elect to continue the treatment or make other arrangements.

A person with a currently valid American Red Cross Standard First Aid Card shall be present for all field trips, athletic and other off-campus events.

The Supervising Teacher or Principal shall establish procedures to be followed in any accident, and for providing first aid or emergency treatment to a student who is ill or injured.

Removal of Student During School Hours

The Board recognizes its responsibility for the proper care of students during school hours. Students shall not be removed from school grounds, any school building or school function during school hours except by a person duly authorized in accordance with District procedures. Before a student is removed or excused, the person seeking to remove the student must present to the satisfaction of the Supervising Teacher or Principal evidence of his/her proper authority to remove the student. A teacher should not excuse a student from class to confer with anyone unless the request is approved by the Supervising Teacher or Principal.

The removal of a student during the school day may be authorized in accordance with the following procedures:

1. Law enforcement officers, upon proper identification, may remove a student from school as provided in Policy #2441 or #4410.
2. Any other agencies must have a written administrative or court order directing the District to give custody to them. However, employees of the Department of Family Services may take custody of a student under provisions of §41-3-301, MCA, without a court order. Proper identification is required before the student shall be released.
3. A student shall be released to the custodial parent. When in doubt as to who has custodial rights, school enrollment records must be relied upon as the parents (or guardians) have the burden of furnishing schools with accurate, up-to-date information.
4. The school should always check with the custodial parent before releasing the student to a non-custodial parent.
5. Prior written authorization from the custodial parent or guardian is required before releasing a student into someone else's custody unless an emergency situation justifies a waiver.
6. Police should be called if a visitor becomes disruptive or abusive.

The Board will establish appropriate fees and procedures governing the collection of fees.

A student shall be responsible for the cost of replacing materials or property that are lost or damaged due to negligence. Student Fund Raising Activities

The Board acknowledges that the solicitations of funds from students, staff and citizens must be limited since students are a captive audience and since solicitation can disrupt the program of the schools. Solicitation and collection of money by students for any purpose including the collection of money by students or the collection of money in exchange for tickets, papers, magazine subscriptions, or for any other goods or services for the benefit of an approved school organization may be permitted by the Board providing that the instructional program is not adversely affected.

The Supervising Teacher or Principal shall distribute the following guidelines to each organization granted permission to solicit funds:

1. Student participation must be voluntary.
2. The fund raising activity must be such that it is not likely to create a poor public relations image.
3. Fund raising activity efforts must not interfere with the educational program.
4. Fund raising activities conducted by outside groups (including parent groups) must not involve the official student body organizations and must not utilize district materials, supplies, facilities or staff unless reimbursement is made. If student body organization involvement occurs, any moneys become student body moneys and are subject to student body accounting requirements.
5. Fund raising activities in excess of \$_____ must be submitted by the Supervising Teacher to the Board for approval. Application for approval must include:
 - a. The sponsoring group;
 - b. The proposed activity;
 - c. The manner in which the money is to be collected; and
 - d. The purpose.
6. Any outside group other than an official school-parent group must have Board approval before conducting fund raising activities within a school or schools. Such outside organizations or persons seeking to raise funds from or through students:
 - a. Must work through established official parent organizations and not with or through student body organizations or administration.
 - b. May not use school materials, supplies, facilities, or staff without proper reimbursement. Request for access to students for purposes of fund raising should be referred to the appropriate parent organization, which shall have the option of permitting the outside group to utilize the parent organization's normal method of communicating to transmit information concerning the fund raising.
 - c. Shall not collect money in school buildings as part of fund raising activities. Fund collections must be made by other means in other locations under the supervision of the official parent groups, except that each school may permit the official parent organization to maintain one box in the school for deposit of envelopes containing funds, and,
 - d. May display a sign announcing a fund raising activity. Brochures explaining the program may be made available to students.

The District maintains two (2) sets of school records for each student. The permanent record may include:

- Basic identifying information
- Academic transcripts
- Attendance record
- Accident and health reports

The cumulative record may include:

- Intelligence and aptitude scores
- Psychological reports
- Achievement test results
- Participation in extra curricular activities
- Honors and awards
- Teacher anecdotal records

- Verified reports or information from non-educational persons
- Verified information of clear relevance to the student's education
- Information pertaining to the release of this record
- Disciplinary information

The Family Education Rights and Privacy Act (FERPA) affords parents/guardians and students over 18 years of age ("eligible students") certain rights with respect to the student's education records. They are:

1. The right to inspect and copy the student's education records within a reasonable time of the day the District receives a request for access.

Students less than 18 years of age have the right to inspect and copy their permanent record. Parents/ guardians or students should submit to the Supervising Teacher or the Principal in written request that identifies the record(s) they wish to inspect. The school personnel will make arrangements for access and notify the parent(s)/guardian(s) or eligible student of the time and place where the records may be inspected. The District charges a nominal fee for copying, but no one will be denied their rights to copies of their records for inability to pay this cost.

The rights contained in this section are denied to any person against whom an order of protection has been entered concerning a student.

2. The right to request the amendment of the student's education records that the parent(s)/guardian(s) or eligible student believes are inaccurate, misleading, irrelevant, or improper.

Parents/guardians or eligible students may ask the District to amend a record that they believe is inaccurate, misleading, irrelevant, or improper. They should write the appropriate school personnel, clearly identifying the part of the record they want changed, and specify the reason.

If the District decides not to amend the record as requested by the parents/guardians or eligible student, the District will notify them of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parents/guardians or eligible student when notified of the right to a hearing.

3. The right to permit disclosure of personally identifiable information contained in the student's education records, except to the extent that FERPA or state law authorizes disclosure without consent.

Disclosure is permitted without consent to school officials with legitimate educational or administrative interest. A school official is a person employed by the District in education or a support position; a Trustee; a person with whom the District has contracted to perform a special task, or a parent/guardian or student serving on an official committee, such as a discipline or grievance committee, or assisting another school official in performing his or her tasks.

A school official has a legitimate education interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

Upon request, the District discloses education records without consent to officials of another school district in which a student has enrolled or intends to enroll as well as to any person as specifically required by state or federal law. Before information is released to individuals described in this section, the parents/guardians will receive prior written notice of the nature and substance of the information, and an opportunity to inspect, copy, and challenge the records. The right to challenge school student records does not apply to: (1) academic grades of their child, and (2) references to expulsion or out-of-school suspensions, if the challenge is made at the time the student's school records are forwarded to another school to which the student is transferring.

Disclosure is also permitted without consent to: any person for research, statistical reporting or planning, provided that no student or parents/guardians can be identified; any person named in a court order; and appropriate persons if the knowledge of such information is necessary to protect the health or safety of the student or other persons.

4. The right to a copy of any school student record proposed to be destroyed or deleted.

Public Information Program

The District shall strive to maintain effective two-way communication channels with the public. Such channels shall enable the Board and staff to interpret the schools' needs to the community and provide a means for citizens to express their needs and expectations to the Board and staff.

Community opinion may be solicited through parent organizations, parent-teacher conferences, open houses and other such events or activities which may bring staff and citizens together. Survey instruments and/or questionnaires may be developed in order to gain a broad perspective of community opinion.

The Board of Trustees has the authority to judge whether information shall be considered public or confidential. Information considered public will be provided or available to the press via news releases, interview or other appropriate methods. Confidential information that might infringe on the privacy rights of individuals will not be made public.

Legal Information Sources

Rules and regulations of the Board of Public Education (Title 10 ARM) and the School Laws of Montana (MCA) shall be available in the County Superintendent's office. These publications shall be made available for use by staff, students, and interested citizens.

School Support Organizations and Fund Raising by These Groups**School Support Organizations**

The Board encourages the formation of a parent-; teacher-; (student-, as appropriate) association at the school for the purpose of providing an opportunity through which parents, teachers, and students may unite their efforts and interests to enhance the school program. In schools where no such organization exists, the Board of Trustees can recognize another parent group as the official body through which parents, staff and students may unite their efforts for similar purposes. Booster clubs and/or special interest organizations may be formed to support and strengthen specific activities conducted within the school. All such groups must receive the approval of the Board in order to be recognized as a booster organization. Staff participation, cooperation and support are encouraged in such recognized organizations.

Fund-Raising by School Support Groups

Fund-raising by school support groups such as booster clubs, parent councils, and the like are considered a usual and desirable part of the function of such groups. The specific fund-raising activities must be approved in advance by the Board of Trustees and must be consistent with Policy #3530 pertaining to student fund-raising.

The Board of Trustees shall approve all expenditures of such funds. All such funds raised by school adjunct groups are to be used for the direct or indirect support of school programs. Equipment purchased by support groups and donated to the schools becomes the property of the District and may be used or disposed of in accordance with District policy and state law.

These fund-raising activities must conform to the following guidelines:

1. If the fund-raising activity involves students or the school, the fund raising must be approved by the Board of Trustees.
2. The fund-raising activity must not interfere with the educational program.
3. Any student participation must be purely voluntary. Door-to-door solicitation by students is discouraged but the District recognizes that parents have the responsibility for directing the behavior of their children in non-school hours.
4. The number of fund-raising activities in any school should be limited to a few each year.
5. The purpose of the fund-raising effort must be well publicized to parents and other citizens.
6. The fund-raising activity must be such that it is not likely to create a poor image for the school support group or the District.
7. If local or state agencies require a license or permit for the fund-raising activity, the license or permit must be obtained in advance by the school support group.

Review of Learning Materials

The Reconsideration Committee shall consist of members as outlined in the policy. Ex-officio members may include the Supervising Teacher or Principal and, if the challenged material is library material, a librarian of a nearby school.

When a citizen of the District or parent/guardian of a student attending school questions the appropriateness of textbooks, library books, instructional materials or supplementary materials being used, the Supervising Teacher or Principal shall first investigate the matter. If the Supervising Teacher or Principal agrees that the material should be withdrawn, no further action is required. If the problem is not resolved through this investigation, the complainant shall submit a Request for Reconsideration of Learning Materials on the attached forms.

During the process, the challenged material will remain in use unless the committee determines that, if the material in question were to remain in use, it would render the committee's decision moot.

Upon receipt of the request, the Board of Trustees will direct the Reconsideration Committee to take the following steps:

1. inform the Board of the challenge and dates of the review committee's meetings;
2. read, view or listen to the material in its entirety;
3. check general acceptance of the material by reading reviews and consulting recommended lists;
4. determine the extent to which the material supports the curriculum.

The Reconsideration Committee will complete its deliberation with all possible dispatch and submit its written report to the Board of Trustees, the complainant, and other appropriate staff. A majority vote or consensus of the total committee will be required to determine its recommendation.

If the complainant is not satisfied with the decision of the committee, he/she may request, in writing, a review by the Board. The request will be submitted to the board as an information item at the next regularly scheduled Board meeting. Subsequent to reviewing the request, any Board member/s may place the matter on the next meeting agenda as an action item, at which time the matter will be discussed and a decision given to the complainant. This discussion will be held in executive session if the Board Chair determines the complaint, in whole or in part, is evaluative of a District employee's performance and that individual's right of privacy exceeds the public's right to know.

Review of Services of Staff

These procedures are intended to resolve concerns of a citizen of the District or the parent/guardian of a student attending _____ School in the District. They are not to be used by persons who are not citizens in _____ School District, nor are they available as procedures to resolve employee grievances.

Most problems can be resolved by an informal meeting between the citizen and the staff member. If the problem is not solved at that level, it can be appealed to the Board, if necessary. Complaints should be filed within 21 school days from the date of the incident.

The following steps apply to the processing of a complaint that cannot be solved through informal means. This resolution process should be completed within 30 working days and each step should be completed within 10 working days.

Step 1: The Board Chair shall attempt to settle the complaint at the level closest to the problem to be resolved.

- A) If a settlement is reached, the Board Chair shall send a copy of the process used to resolve the complaint and a short report describing the settlement (signed by a party) to the full Board.
- B) If the complaint is not resolved, the Board Chair will forward the complaint back to the full Board for further action.

Step 2: If circumstances warrant, the Board may use an independent outside adjudicator to review the complaint.

Step 3: The adjudication process to be used by the Board or outside adjudicator shall result in a written report and will normally involve most of these components:

- A) Clarification of the complaint with the originator;
- B) Written response to the complaint by the employee;
- C) One or more hearings to gain information and insight;
- D) Review of all documents and testimony;
- E) Preparation of a written adjudication report (copies provide to the originator of the complaint, the affected employee and the full Board).

Step 4: If either of the two principal parties to the complaint disagrees with the decision of the adjudication report, it may be appealed to the Board of Trustees. The Board shall hear and rule on the appeal at the next regularly scheduled meeting of the Board.

If, upon initial contact by a law enforcement agency, the Supervising Teacher or Principal is directed by the agency not to attempt to notify the student's parent or obtain the parent's attendance during any interview or interrogation, the Supervising Teacher or Principal shall immediately prepare a written statement that the District has been directed to make the student available for interview or interrogation without notice to the parent, and should request that the investigating officer sign the statement. If the officer refuses, the Supervising Teacher or Principal shall record the time, date, the officer's name, title and badge number and that the officer refused to sign the statement.
4. If a student is under legal age, the school shall require signed, written parental notification before allowing any interrogation to take place unless law enforcement presents a signed written statement to the district indicating that parental notification is not advisable.
5. An officer not in "hot pursuit" is required to have a warrant in order for the school to release the student into law enforcement custody. Prior to a student being taken into custody by a law enforcement officer, the school will notify the parent or guardian.

Relations with Child Protective Agencies

1. Social services workers shall contact the Supervising Teacher or Principal upon entering a school building.
2. A social worker may request and be granted such information as address, telephone number, parents' names, date of birth and attendance information. Information contained in the student's cumulative folder and any supplementary records shall be available for inspection on evidence that a student is a ward of the state or with a court order stating that the student is the subject of an investigation involving child abuse or neglect and that the social worker has access to student records.
3. While the District encourages interviews of a student to take place off school premises, the Supervising Teacher or Principal shall permit a social worker to conduct any questioning when child abuse or neglect is involved. The Supervising Teacher and school staff shall cooperate fully during such investigations. Interviews shall be conducted in the presence of a professional staff member unless specifically requested otherwise by the social worker.
4. A social worker is required to have a warrant in order for the school to release custody of a student unless the custody by the social worker is deemed necessary for the emergency protection of the child (41-3-301, MCA). In the event a student is taken into custody, the school shall inform the social worker of his/her obligation to notify the parent or guardian.

Interrogation and Investigations Conducted by School Officials

The administration has the authority and duty to conduct investigations and to question students pertaining to infractions of school rules, whether or not the alleged conduct is a violation of criminal law. The administration shall determine when the necessity exists that law enforcement officers be asked to conduct an investigation of alleged criminal behavior which jeopardizes the safety of other people or school property or which interferes with the operation of the schools.

In instances when the administration has reasonable suspicion that a violation of district policy or the student code of conduct has been violated, the administrator will investigate. The administrator will notify the suspected rule violator(s) or potential witness(es) to the infraction. The suspected student shall be advised orally or in writing of the nature of the alleged offense and of the evidence against the student. Circumstances may arise where it would be advisable to have another adult present during questioning of students.

Investigations by Law Enforcement

When a student becomes involved with law enforcement officers due to events outside of the school environment and officers other than a SRO must interact with a student, the officer(s) is requested to confer with the student when he/she is being investigated for conduct not under the jurisdiction of the school. If this cannot be arranged, the SRO is the first person of contact for law enforcement. If for any reason the SRO is not available to respond to a request, the following steps shall be taken to cooperate with the authorities.

- a. The officer shall contact the school principal and present proper identification in all occasions upon his/her arrival on school premises.
- b. Parents or guardians shall be notified by the law enforcement officer, school principal or assistant principal as soon as possible. The law enforcement officer, principal or assistant principal shall make every effort to inform parents or guardians of the intent of the law enforcement officers except when that notification may compromise the student's safety.
- c. The student's parent or guardian should be present, if practicable, during any interrogation on school premises.

Cooperation with Law Enforcement

Although cooperation with law enforcement officers will be maintained, it is the preference of the District that it will not normally be necessary for law enforcement officers to initiate, and conduct any investigation and interrogation on the school premises, during school hours, pertaining to criminal activities unrelated to the operation of the school. It is preferred that only in demonstrated emergencies, when law enforcement officers find it necessary, will they conduct such an investigation during school hours. These circumstances might be limited to those in which delay might result in danger to any person, flight of a person reasonably suspected of a

crime from the jurisdiction or local authorities, destruction of evidence, or continued criminal behavior.

No school official, however, should ever place him/herself in the position of interfering with a law enforcement official in the performance of his or her duties as an officer of the law. If the law enforcement officials are not recognized and/or are lacking a warrant or court order, the building principal shall require proper identification of such officials and the reason(s) for the visit to the school. If the principal is not satisfied, he/she shall attempt to notify the Superintendent and the officer's superior, documenting such action.

In all cases, the officers shall be requested to obtain prior approval of the principal or other designated person before beginning such an investigation on school premises. The administrator shall document the circumstances of such investigations as soon as practical. Alleged behavior related to the school environment brought to the Principal's attention by law enforcement officers shall be dealt with under the provisions of the two previous sections.

Taking a Student into Custody

School officials shall not release students to law enforcement authorities voluntarily unless the student has been placed under arrest or unless the parent or guardians and the student agree to the release. When students are removed from school for any reason by law enforcement authorities, every reasonable effort will be made to notify the student's parents or guardians immediately. Such effort shall be documented.

Whenever an attempt to remove a student from school occurs without an arrest warrant, court order, or without acquiescence of the parent or guardian, or the student, the administrator shall immediately notify a superior of the law enforcement officers involved to make objection to the removal of the student and shall attempt to notify the parent or guardian of the student. The Superintendent's office shall be notified immediately of any removal of a student from school by law enforcement officers under any circumstances. When it is necessary to take a student into custody on school premises and time permits, the law enforcement officer shall be requested to notify the principal and relate the circumstances necessitating such action. When possible, the principal shall have the student summoned to the principal's office where the student may be taken into custody. In all situations of interrogations, arrest or service of subpoenas of a student by law enforcement officers on school premises, all practicable steps shall be taken to ensure a minimum of embarrassment or invasion of privacy of the student and disruption to the school environment.

Disturbance of School Environment

Law enforcement officers may be requested to assist in controlling disturbances of the school environment which the Principal or other school administrator has found to be unmanageable by school personnel and which disturbances have the potential of causing harm to students, other persons, or school property. Staff members may also notify law enforcement officials.

Such potential of possible disturbance includes members of the public who have exhibited undesirable or illegal conduct on school premises or at a school event held on school property, and who have been requested to leave by an administrator or staff member, but have failed or refused to do so.

The primary obligation of the District shall be to its students, and such cooperation shall not interfere with or diminish the quality of services offered to its students.

Cooperative Programs with Other Districts and Public Agencies

Whenever it appears to the economic, administrative and educational advantage of the District to participate in cooperative programs with other units of local government, the County Superintendent shall prepare and present for the Board's consideration an analysis of each cooperative proposal.

When formal cooperative agreements are developed, such agreements shall comply with the requirements of the Inter-local Cooperation Act, with assurances that all parties to the agreement have the legal authority to engage in the activities contemplated by the agreement.

Accommodating Individuals With Disabilities

Individuals with disabilities shall be provided an opportunity to participate in all school-sponsored services, programs, or activities on an equal basis to those without disabilities and will not be subject to illegal discrimination. The District will provide auxiliary aids and services where necessary to afford individuals with disabilities equal opportunity to participate in or enjoy the benefits of a service, program, or activity.

Each service, program, or activity operated in existing facilities shall be readily accessible to, and useable by, individuals with disabilities. New construction and alterations to facilities existing before January 26, 1992, will be accessible when viewed in their entirety.

The Board will designate the Americans With Disabilities Act, Title IX Coordinator and, in that capacity, the person is directed to:

1. Oversee the District's compliance efforts, recommend necessary modifications to the Board, and maintain the District's final Title II self-evaluation document and keep it available for public inspection.
2. Institute plans to make information regarding Title II protection available to any interested party.

Individuals with disabilities should notify the Board of Trustees if they have a disability that will require special assistance or services and, if so, what services are required. This notification should occur as far as possible before the school-sponsored function, program, or meeting.

Sexual Harassment/Sexual Intimidation in the Workplace

The District shall do everything in its power to provide employees an employment environment free of unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct, or communications constituting sexual harassment, as defined and otherwise prohibited by state and federal law.

District employees shall not make sexual advances or request sexual favors or engage in any conduct of a sexual nature when:

- (1) Submission to such conduct is made either explicitly or implicitly a term or condition of an individual's employment;
- (2) Submission to or rejection of such conduct by an individual is used as the basis for employment decisions affecting such individual; or
- (3) Such conduct has the purpose or effect of substantially interfering with the individual's work performance or creating an intimidating, hostile, or offensive working environment.

Sexual harassment prohibited by this policy includes verbal or physical conduct. The terms "intimidating", "hostile", or "offensive" include, but are not limited to, conduct which has the effect of humiliation, embarrassment, or discomfort. Sexual harassment will be evaluated in light of all of the circumstances.

A violation of this policy may result in discipline, up to and including discharge. Any person making a knowingly false accusation regarding sexual harassment will likewise be subject to disciplinary action, up to and including discharge.

Aggrieved persons, who feel comfortable doing so, should directly inform the person engaging in sexually harassing conduct or communication, that such conduct or communication is offensive and must stop.

Employees who believe they may have been sexually harassed or intimidated should contact the County Superintendent, who will assist them in filing a complaint. An individual with a complaint alleging a violation of this policy shall follow the Uniform Grievance Procedure.

Criminal Background Investigations

It is the policy of the Board that all employees hired who care for or supervise students; or have access to students in schools will submit to a background investigation conducted by the appropriate law enforcement agency. The Board is charged with the responsibility for carrying out the intent of this policy. Since all Montana licensed educators are required to have a background check as a condition of receiving their licenses, this policy does not require a further background check of those professionals.

The following applicants for employment, as a condition for employment, will authorize in writing, a background investigation to determine if he or she has been convicted of certain criminal or drug offenses:

- * an educational support personnel employee seeking full-time employment within the district;
- * an educational support personnel employee seeking concurrent part-time employment positions with one or more school districts;
- * an employee of a person or firm holding a contract with more than one school district and the employee is assigned to more than one school district;
- * a volunteer assigned within the district who has access to students.

An applicant must be of good character. If he/she has any prior record of arrest or conviction by any local, state, or federal law enforcement agency for an offense other than a minor traffic violation, the Board must be notified of the arrest or conviction, and the Board and his/her supervisors will review the facts and decide whether the applicant shall be declared eligible for appointment.

A record of conviction resulting from the background check will be held as confidential and shared only with the Board, the County Superintendent, the Superintendent of Public Instruction, the State Board of Public Education, or any other person necessary to the hiring decision.

A copy of the record of convictions obtained from the Department of Justice will be provided to the applicant.

The County Superintendent will observe all non-tenured teachers at least two times per year. The County Superintendent will evaluate the non-tenured teachers twice each year using the District evaluation tool.

Both non-tenured and tenured teachers will complete self-evaluations using the District evaluation tool. Based on their self-evaluations, tenured teachers will set professional goals for themselves and make these goals known to the County Superintendent, the Board, the supervising teacher, and the business manager. Efforts toward attaining these goals are a part of teacher performance evaluations. The goals will include: (1) three professional goals; (2) one personal goal related to school; and (3) one goal related to the previous year's achievement scores. Non-tenured teachers will follow the same goal setting procedure basing their goals on both their self-evaluations and the evaluations conducted by the County Superintendent.

All teachers will have an end-of-year conference with the County Superintendent.

Each classified employee shall be evaluated as needed, but no less than once every three years.

Staff Health and Communicable Diseases

Through its overall safety program and various policies pertaining to school personnel, the Board shall promote the safety of employees during working hours and assist them in the maintenance of good health. It shall encourage all its employees to maintain optimum health through the practice of good health habits.

Under the circumstances defined below, the Board may require physical examinations of its employees. The District shall pay for all such physical examinations. Results of such physical examinations shall be maintained in separate medical files and not in the employee's personnel file and may be released only as permitted by law.

Physical Examinations

If the work is of a physically demanding nature, subsequent to a conditional offer of employment and prior to a commencement of work, the District may require an applicant to have a medical examination and to meet any other health requirements that may be imposed by the state. The District may condition an offer of employment on the results of such examination if all entering employees in the applicable job category are subject to such examination.

If approved by personnel services, a 30-day grace period beginning from the date of employment may be allowed for the employee to obtain the required medical examination.

All bus drivers, including full-time, regular part-time or temporary part-time drivers are required by state law to have a satisfactory medical examination prior to employment.

Communicable Diseases

If a staff person has a communicable disease and has knowledge that a person with compromised or suppressed immunity attends the school, the staff person must notify the school nurse or other responsible person designated by the Board that they have a communicable disease which could be life threatening to an immune compromised person. The school nurse or other responsible person designated by the Board must determine, after consultation with and on the advice of public health, if the immune compromised person needs appropriate accommodation to protect their health and safety.

An employee with a communicable disease shall not report to work during the period of time in which she/he is contagious/infectious. An employee afflicted with a communicable disease capable of being readily transmitted in the school setting (e.g., airborne transmission of tuberculosis) shall be encouraged to report the existence of the illness in case there are precautions that must be taken to protect the health of others. The district reserves the right to require a statement from the employee's primary care provider prior to the employee's return to work.

Confidentiality

In all instances, District personnel shall respect the individual's right to privacy and treat any medical diagnosis as confidential information. Any information obtained regarding the medical condition or history of any employee shall be collected and maintained on separate forms and in separate medical files and be treated as confidential (i.e., those persons with a direct responsibility for the care of or for determining work place accommodation for the staff person will be provided with necessary medical information).

Supervisors may be informed of the necessary restrictions on the work or duties of the employee and necessary accommodations. First aid and safety personnel may be informed, when appropriate, if the disability might require emergency treatment.

Uniform Grievance Procedure

All individuals should use this grievance procedure if they believe that the Board, its employees or agents have violated their rights guaranteed by the State or federal constitution, State or federal statute, or Board policy.

The District will endeavor to respond to and resolve complaints without resorting to this grievance procedure and, if a complaint is filed, to address the complaint promptly and equitably. The right of a person to prompt and equitable resolution of the complaint filed hereunder shall not be impaired by the person's pursuit of other remedies. Use of this grievance procedure is not a prerequisite to the pursuit of other remedies, and use of this grievance procedure does not extend any filing deadline related to the pursuit of other remedies.

Level 1: Informal: An individual with a complaint is encouraged to first discuss it with the teacher, or staff member involved, with the objective of resolving the matter promptly and informally. An exception is that complaints of sexual harassment should be discussed with the County Superintendent.

Level 2: County Superintendent: If the complaint is not resolved at Level 1, the grievant may file a written grievance stating: 1.) the nature of the grievance and 2.) the remedy requested. It must be signed and dated by the grievant. The Level 2 written grievance must be filed with the County Superintendent within sixty (60) days of the event or incident, or from the date the grievant could reasonably become aware of such occurrence.

If the complaint alleges a violation of Board policy or procedure, the County Superintendent shall investigate and attempt to resolve the complaint. If either party is not satisfied with the County Superintendent's decision, the grievance may be advanced to Level 3 by requesting in writing that the Board review the County Superintendent's decision. This request must be submitted to the Board within fifteen (15) days of the County Superintendent's decision.

If the complaint alleges a violation of Title IX, Title II, Section 504 of the Rehabilitation Act, or sexual harassment, the County Superintendent shall turn the complaint over to the Nondiscrimination Coordinator who shall investigate the complaint. The District has appointed Nondiscrimination Coordinators to assist in the handling of discrimination complaints. The Coordinator will complete the investigation and file the report with the County Superintendent within thirty (30) days after receipt of the written grievance. The Coordinator may hire an outside investigator if necessary. If the County Superintendent agrees with the recommendation of the Coordinator, the recommendation will be implemented. If the County Superintendent rejects the recommendation of the Coordinator, and/or either party is not satisfied with the recommendations from Level 2, either party may make a written appeal within fifteen (15) days of receiving the report of the Coordinator to the Board for a hearing.

Level 3: The Board: If either party is not satisfied with the decision of the County Superintendent, the Board is the next avenue for appeal. A written appeal must be submitted to the Board within fifteen (15) days of receiving the County Superintendent's decision. The Board is the policy-making body of the school, however, and appeals to that level must be based solely on whether or not policy has been followed. Any individual appealing a decision of the County Superintendent to the Board bears the burden of proving a failure to follow Board policy.

Upon receipt of a written appeal of the decision of the County Superintendent, and assuming the individual alleges a failure to follow Board policy, the matter shall be placed on the agenda of the Board for consideration not later than their next regularly scheduled meeting. A decision shall be made and reported in writing to all parties within thirty (30) days of that meeting. The decision of the Board will be final, unless appealed within the period provided by law.

Level 4: County Superintendent: If the case falls within the jurisdiction of the County Superintendent of Schools, the decision of the Board may be appealed to the County Superintendent, who shall appoint an impartial County Superintendent, by filing a written appeal within thirty (30) days after the final decision of the Board, pursuant to the Rules of School Controversy.

Reduction in Force

The Board has the exclusive authority to determine the appropriate number of certified employees. A reduction of certified employees may occur as a result of, but not be limited to, changes in the education program, staff realignment, changes in the size or nature of the student population, financial situation considerations, or other reasons deemed relevant by the Board.

The reduction in certified employees will be done through normal attrition if possible. If normal attrition does not meet the necessary reduction in force required, the Board may terminate certified employees.

It shall be the responsibility of the County Superintendent or the Principal to make a recommendation for termination to the Board. The County Superintendent or the Principal shall consider the following criteria in making the recommendations:

- Endorsements and educational preparation within the grade level and subject areas in which the employee is now performing;
- Relative skills, ability and demonstrated performance; and

Employee Assistance Program (Optional)

The Alder School District will provide an Employee Assistance Program (EAP) that will assist employees and their dependents in dealing with the personal problems that pose a threat to their health, well-being and/or possibly their jobs. The EAP may help with a wide range of problems employees face such as alcoholism, drug abuse, emotional problems or other personal concerns. The scope of assistance will be limited to (1) initial assessment and referral; (2) up to three short-term counseling sessions with the District's external EAP coordinator; and (3) awareness/education services on the effects of drug/alcohol and other addictions, stress management and/or other areas of personal problems. Subsequent services, which may be indicated, may be partially covered by applicable provision of health insurance, with the employee being responsible for any remainder of services provided. The District will make confidential assistance available through special arrangements by the District with a confidential external EAP coordinator. The external EAP coordinator will coordinate with the Personnel Services Department of the School District. No services, beyond the three listed in this policy as the scope of this program, will be provided to employees except in those specifically covered in the District's employee benefit plan.

Implementation of this program will not require or result in any special regulations, privileges or exceptions from the standard administrative practices applicable to job performance, except as may be outlined in a labor/management agreement. The EAP is complimentary to, but not a substitute for, adequate job performance.

The Alder Public School District must provide a safe environment for all students, patrons and employees of the District. Leaves

Sick Leave - Policy and Objectives

It is the policy of the Alder Public Schools to grant its classified employees sick leave benefits in accordance with Section 2-18-618, MCA. Teachers shall be granted sick leave in accordance with the provisions of their teaching contracts/Board policy.

Sick leave means a leave of absences with pay for a sickness suffered by an employee or his/her immediate family. Immediate family shall mean the employee's spouse and children residing in the employee's household.

Nothing in this policy guarantees approval of the granting of such leave in any instance. The District will judge each request in accordance with this policy and the governing contractual agreements.

The objectives of this policy are to establish functional uniform procedures for calculating and granting sick leave benefits in accordance with Section 2-18-618, MCA.

Further, it is an objective of this policy to assure compliance with the maternity leave requirements specified in the Civil Rights Act of 1964 and the Montana Maternity Leave Act. Sick leave will be available for pregnancy, miscarriage, childbirth, and recovery there from.

It is understood that seniority shall accumulate while a teacher or employee is utilizing accumulated sick leave credits. Seniority will not accumulate unless an employee is in a pay status.

Abuse of sick leave is cause for discipline up to and including termination/discharge.

Adoption Leave (Optional)

Up to twenty (20) days of Sick Leave may be granted upon request of an employee for the purpose of adoption, as is prescribed below:

1. Adoption leave shall be charged only to accumulated Sick Leave, and otherwise shall be a leave of absence without pay.
2. An employee shall have no more than a period of 42 calendar days from the time a newly adopted child enters his/her home in which to apply for adoption time; thereafter, the provision of this leave will not be available.
3. In the event that both parents are employees of the district, their combined total adoption leave shall not exceed twenty (20) working days.
4. Any request for adoption leave beyond twenty (20) working days shall be considered parental leave, and in every instance shall be leave without pay. Nothing contained within this policy binds the district to grant adoption or parental leave.

Civic Duties Leave (For Certified Only)

Employees can request pay for absences for Jury Duty or other appearances in court in response to a duly served subpoena, except where the employee is a litigant in the case. The pay for subpoena leave shall be the regular rate of pay for the employee, less any payment received from the court exclusive of reimbursement for travel, meals and lodging.

1. The employee requesting pay must file a copy of the subpoena with the clerk and inform the immediate supervisor prior to the absence. The employee shall keep the supervisor informed of the length of absence.
2. The employee must complete a "Request for Leave" form, prior to the leave if possible.

Personal Leave (For Certified Only)

The District may provide up to two (2) days of Personal Leave per year to each contracted, full-time certified employee. In the event of part time employees, two pro-rated days shall be provided.

One day shall be at regular salary, unless it extends a school vacation or holiday, and the additional day will result in a deduction in any event from the employee's salary at a rate equal to the current cost of a substitute subject to the following conditions:

1. Any extensions of vacations or holidays by use of contiguous working days, shall result in a deduction from the employee's salary at a rate equal to the current cost of a substitute. Should more than one personal leave day be used to extend a vacation or holiday, whether on either end or by use of contiguous working days, there shall be a deduction for both days.
2. In the case of emergencies generated in conjunction with a scheduled School District vacation or holiday precludes the return of a staff member, application for Personal Leave may be made on return. If granted, this day will result in a deduction from the employee's salary at a rate equal to the current cost of a substitute.
3. Personal Leave days will not be granted during the first two nor the last two days of any school semester, nor during any Pupil Instruction Related Day by teachers unless approved by the Board for compelling reasons.
4. Exceptions to this policy may be made during periods of emergency, such as when there is an inadequate supply of substitutes. The Board reserves the right to grant Personal Leave days upon petition for extraordinary or emergency reasons; the granting of Personal Leave in such instances will not constitute a precedent binding upon the District in its administration of Personal Leave policies.
5. Personal Leave is not cumulative.

Extended and/or General Leave Requests (Discretionary)

The Board of Trustees reserves final approval of all discretionary extended leave requests, whether with or without pay. This shall include those leaves under the Voluntary Career Development Plan, as well as discretionary leaves without pay. All such leave requests must come before the Board for its approval.

Long-Term Illness/Temporary Disability/Maternity Leave

It is the policy of the Alder Public School to enable its employees to use sick leave for long-term illness or temporary disability, and upon the expiration of sick leave to grant eligible employees leave without pay if requested.

Medical certification of the long-term illness or temporary disability may be required at the Board's discretion. Long-term illness or temporary disability shall be construed to include pregnancy, miscarriage, childbirth and recovery there from. Maternity leave includes only continuous absence immediately prior to delivery, absence for delivery, and absence for post-delivery recovery, or continuous absence immediately prior to and in the after-math of miscarriage or other pregnancy-related complications. Such leave shall not exceed six weeks unless prescribed by a physician.

Leave without pay arising out of any long-term illness or temporary disability, including pregnancy, miscarriage, childbirth and recovery there from shall commence only after sick leave has been exhausted. The duration of leaves, extensions, and other benefits for privileges such as health and long-term illness or temporary disability plans in the event of maternity leave, shall apply under the same conditions as other long-term illness or temporary disability leaves.

The Board of Trustees shall devise procedures within the intent of Title VII of the 1964 Civil Rights Act as amended in 1978 by the Pregnancy Discrimination Act, and within the scope of applicable law and court rulings in the state of Montana.

All employees of the District are covered by Worker's Compensation benefits.

In the event of an industrial accident, an employee should:

1. Attend to first aid and/or medical treatment if emergency prevails;
2. Correct or report as needing correction the hazardous situation as soon as possible after the emergency is stabilized;
3. Report the injury or disabling condition (whether actual or possible) to the immediate supervisor within 48 hours on the Employers First Report of Occupational Injury or Disease; and
4. Call or visit the Clerk after medical treatment if needed to complete the necessary report of accident and injury, the Occupational Injury or Disease Form.

The Clerk shall notify the immediate supervisor of the report, and shall include the immediate supervisor in completing the report as required.

An employee who is injured in an industrial accident may be eligible for Worker's Compensation benefits. By law, use of sick leave must be coordinated with receipt of Worker's Compensation benefits on a case-by-case basis by contacting the Worker's Compensation Division, Department of Labor and Industry.

The District will not automatically and simply defer to a report of industrial accident. The District shall investigate, as it deems appropriate, to determine (1) whether continuing hazardous conditions exist that need to be eliminated, and (2) whether in fact an accident attributable to the District's working environment did occur as reported. The District may require the employee to authorize his/her physician to release pertinent medical information to the District's personnel office or to a physician of the District's choice should an actual claim be filed against the Worker's Compensation Division that could result in additional fees levied against the District.

An employee who elects to receive Worker's Compensation benefits shall, upon commencement of the benefits, be considered in a Leave Without Pay status, and shall no longer be eligible for District group insurance benefits except as may be required by the Family Medical Leave Act and to the extent provided for all employees on Leave Without pay status, i.e., that all premiums are due in advance on a monthly basis for the duration of the Leave without Pay. The District will discontinue its contributions for group insurance on behalf of any employee on a Leave Without Pay status at the end of the month in which Leave Without Pay commences.

Professional Development

The District recognizes that additional training and study are advantageous for the continued growth and ability of District employees. As part of a continuous program of instructional and administrative improvement, the District shall provide a minimum of three days of professional development annually for certified employees. A day of professional development is defined as six hours of actual contact time. Professional development time may be divided into no less than two hour increments to facilitate delivery of professional development programs. By May 15 of each year, the District shall formulate a professional development plan that includes:

1. Goals and objectives appropriate to the professional development needs of teachers, school trustees, and all other school personnel;
2. Acceptable activities; and
3. Evaluation methods required for each activity in the plan.

The Board of Trustees shall establish an advisory committee to develop and evaluate the plan. The committee shall include but not be limited to teachers, administrative personnel, and trustees. A majority of the committee shall be teachers. For independent, multi-grade elementary districts with supervising teachers, the County Superintendent may establish one committee to develop the plan for all of these schools in the county. The plan shall be on file with the County Superintendent or the Principal. It shall be available to employees and the public.

Should an educator not complete his/her required PIR, by May 15 of the current school year, the educator's pay will be docked per their hourly rate of pay for each hour not completed.

Release Time for Professional Development

During the course of a year, there are often professionally-related activities such as conventions, committee meetings, workshops, seminars, institutes, visitations and other activities that are related to the education profession in a general sense. The Board of Trustees recognizes that the professional personnel of the District will occasionally want to attend these activities.

Consultation by Certified Employees

Occasionally professional staff asks for release in order to consult outside the District. On limited basis this type of professional activity may be permitted. A professional who is absent a few times during the year for this purpose may be contributing to the profession and to the District. On the other hand, if a teacher were absent from his/her classroom duties many times during the year, the loss of instruction for the students would likely not be offset by the other benefits. The guidelines to be used relative to these requests are:

1. A professional staff member may use his/her personal leave days as per the Public Schools/contract.
2. Such an individual may use professional leave for consulting work if approved by the Board. In making its decision the Board will consider such factors as the total number of absences of the teacher for all purposes during the year; the professional value of the consulting services to be provided by the teachers; maintenance of program effectiveness in the teacher's absence; availability of competent substitutes; and arrangements for substitute pay (see No. 3 below).
3. The beneficiary of the staff member's consultation service will reimburse the District for the cost of the substitute's pay. These arrangements are the responsibility of the consulting professional and must be made with the business office.
4. Where a certified employee uses vacation days for consultation, they shall be the sole concern of the employee.

Aides (Classroom, Library, Etc.)

Aides are under the supervision of the Supervising Teacher and a teacher to whom the Supervising Teacher may have delegated responsibility for close direction. Also by job description, the nature of the work accomplished by aides will encompass a variety of tasks that may be inclusive of "limited instructional duties."

Section 20-3-324(2), MCA, gives the Trustees the power and duty to "employ and dismiss . . . teachers aides . . . and any other personnel considered necessary to carry out the various services of the district."

Aides are employed by the Alder Public Schools mainly to assist the teacher. An aide is an extension of the teacher who legally has the direct control and supervision of the classroom or playground and responsibility for control and the welfare of the students.

It is the responsibility of the Supervising Teacher to recommend to the Board adequate training for an aide. This training should take into account the unique situations in which an aide works, and should be designed to cover the general contingencies that might be expected to pertain to that situation.

Volunteers

The Alder Public School recognizes the valuable contributions made to the total school program by members of the community who act as volunteers. A volunteer by law is an individual who:

1. Has not entered into an express or implied compensation agreement with the District;
2. Is excluded from the definition of "employee" under the appropriate state and federal statutes;
3. May be paid expenses, reasonable benefits and/or nominal fees in some situations; and
4. Is not employed by the District in the same or similar capacity for which he/she is volunteering (e.g. a teacher cannot volunteer to teach although he/she could volunteer to type or file), as prescribed by the Federal Fair Labor Standards Act.

District employees who work with volunteers shall clearly explain duties for supervising children in school, on the playground and on field trips; and an appropriate degree of training and/or supervision of each volunteer shall be administered commensurate with the responsibility undertaken.

The Board of Trustees shall develop and implement procedures for the utilization of volunteers within the District.

Volunteers who are formally acting on behalf of and are assisting in school projects shall be covered by the District's liability insurance. This does not alleviate a volunteer, as is the case with an employee, from exercising appropriate judgment and responsibility in the discharge of all duties in accordance with the policies of the Board of Trustees of the School District.

Student Teachers/Interns

The Alder Public Schools recognizes its obligation to assist in the development of members of the teaching profession. The District shall make an effort to cooperate with accredited institutions of higher learning in the education of student teachers and other professionals in training (such as interns) by providing a reasonable number of classroom and other real life situations each year.

The District and the respective training institutions shall enter into mutually satisfactory agreements whereby the rules, regulations and guidelines of the practical experiences shall be established.

The Supervising Teacher shall coordinate all requests from cooperating institutions for placement so that excessive concentrations of student teachers and interns shall be avoided. As a general rule:

- (1) A student teacher shall be assigned to a teacher or other professional who has agreed to cooperate and who has no less than three (3) years of experience in the profession;
- (2) A supervising professional shall be assigned no more than one student teacher/intern per school year;
- (3) The supervising professional shall remain responsible for the class; and
- (4) The student teacher shall assume the same conditions of employment as a regular teacher with regards to meeting the health examination requirements, length of school day, staff meetings and in-service training.

Employee Electronic Mail and On-Line Services Usage

Electronic mail ("e-mail") is defined as a communications tool whereby electronic messages are prepared, sent and retrieved on computers. On-line services (i.e., the Internet) are defined as a communications tool whereby information, reference material and messages are sent and retrieved electronically on computers.

Because of the unique nature of e-mail/Internet and because of the Alder School District's desire to protect its interest with regard to its electronic records, the following rules have been established to address e-mail/Internet usage by all employees.

The School District e-mail and Internet system is intended to be used for educational purposes only; use for informal or personal purposes is permissible only within reasonable limits. All e-mail/Internet records are considered School District records and should be transmitted only to individuals who have a need to receive them. Additionally, district records, e-mail/Internet records are subject to disclosure to law enforcement or government officials or to other third parties through subpoena or other process. Consequently, employees should always ensure that the educational information contained in e-mail/Internet messages is accurate, appropriate and lawful. E-mail/Internet messages by employees may not necessarily reflect the views of the School District. Abuse of the e-mail or Internet systems, through excessive personal use, or use in violation of the law or School District policies, will result in disciplinary action, up to and including termination of employment.

While the School District does not intend to regularly review employees' e-mail/Internet records, employees have no right or expectation of privacy in e-mail or the Internet. The School District owns the computer and software making up the e-mail and Internet system and permits employees to use them in the performance of their duties. E-mail messages and Internet records are to be treated with the expectation that anything in them is available for review by Board.

Network Acceptable Use Policy

The District recognizes the need for its staff and students to have access to a global information network. Part of the District's responsibility in preparing students is to provide them access to the tools they will be using as adults. We believe that responsible use of this global information network is important.

Accordingly, the District shall operate an information network to enhance and expand its educational mission. The network is an information system owned by the District as well as other information systems to which the District provides intentional or unintentional access.

The District is not responsible for information available from third parties solely for providing access or connection to or from a facility, system or network over which it has no control. An orientation session on appropriate use of the Information Network shall be provided for each user prior to the issuance of a system account. The use of this system shall be consistent with the District's educational mission, district policy, state laws and federal laws.

Internet Information Privacy (Required if the District has a Web site)

Alder School District will not collect personally identifiable information online from its Web site users unless the Web site:

1. Identifies who operates the Web site;
2. Provides the address and telephone number where the operator may be contacted as well as an electronic means of contacting the operator, and
3. Generally describes the operator's information practices, including how it protects the privacy of the user and the steps taken to protect the security of the collected information.

If the personally identifiable information may be used for a purpose other than the express purpose of the Web site or may be given or sold to a third party, then the Web site must include:

1. A clear notice to the user that the information collected could be used for purposes other than the purposes of the Web site;
2. A general description of the types of third parties that may obtain the information; and
3. A clear procedure requiring an affirmative expression of the user's permission before the information is collected.

Personally identifiable information is defined as including: a first and last name, a physical address, an e-mail address, a telephone number, social security number, or unique identifying information that an Internet service provider or a government Web site operator collects and combines with any other parts of the definition.

Whenever a nonresident student is to be enrolled in the district, either by choice or by placement, and attendance agreement must be filed with the board. Terms of the agreement must include tuition rate, the party responsible for paying tuition and the schedule of payment, transportation charges, if any, and the party responsible for paying transportation costs.

Budget and Program Planning

A District's annual budget is evidence of the Board's commitment to the objectives of the instruction programs. The budget supports the immediate and long-range goals and established priorities within all areas of the instructional and non-instructional programs.

Prior to presentation of the proposed budget for adoption, the County Superintendent, if there is no district administrator, or the Principal shall prepare, for the Board's consideration, recommendations (with supporting documentation) that shall be designed to meet the needs of students within the limits of anticipated revenues.

Program planning and budget development shall provide for staff participation and the sharing of information with patrons prior to action by the Board.

Total budget expenditures for each fund as adopted in the final budget shall constitute the appropriations of the District for the ensuing fiscal year. The Board shall be limited in the incurring of expenditures to the total of such appropriations.

With timely notice of a public meeting, Trustees, by majority vote of those present, may declare by resolution that a budget amendment (in addition to the final budget) is necessary. Budget amendments are authorized by ~~§~~ 20-9-161, MCA for specified reasons.

The resolution shall state the facts of the budget amendment, the estimated amount of funds needed, and the time and place when the Board will meet for the purpose of considering and adopting a budget amendment.

The meeting to adopt a budget amendment shall be open and shall provide opportunity for any taxpayer to appear and be heard. Budget procedures shall be consistent with statutory requirements. When applicable, the District shall apply for state financial aid to supplement that amount to be collected from local taxes.

Rural Transportation

The District may provide transportation to and from school for a student who:

1. Resides three or more miles, over the shortest practical route, from the nearest operating public elementary school.
2. Is a student with a disability whose IEP identifies transportation as a related service; or
3. Has another compelling and legally sufficient reason to receive transportation services.

The District may elect to reimburse the parent or guardian of a student for individually transporting any eligible student.

The type of transportation provided by the District may be by a school bus; or by such individual transportation as paying the parent or guardian for individually transporting the pupil; or, providing supervised home study. The District may transport and charge for an ineligible public school student provided that the parent or guardian pays a proportionate share of transportation services. Fees that are collected for the transportation of ineligible students shall be deposited in the transportation fund. Transportation issues that cannot be resolved by the Trustees may be appealed to the County Transportation Committee.

Bus Routes, Schedules, Eligibility and Safety

Bus Routes and Schedules

The Board of Trustees or the Principal shall be responsible for scheduling bus transportation, including determination of routes and bus stops. Such routes are subject to the approval of the County Transportation Committee. The purpose of bus scheduling and routing is to achieve maximum service with a minimum fleet of buses insofar as this is consistent with rendering safe and reasonable equal service to all bus students.

In order to operate the transportation system as safely and efficiently as possible, the following factors shall be considered in establishing bus routes:

1. A school bus route shall be established with due consideration of the sum total of local conditions affecting the safety, economic soundness and convenience of its operation, including road conditions, condition of bridges and culverts, hazardous crossings, presence of railroad tracks and arterial highways, extreme weather conditions and variations, length of route, number of families and children to be serviced, availability of turn-around points, capacity of bus, and other related factors.
2. The district may extend a bus route across another transportation service area if it is necessary in order to provide transportation to pupils in the district's own transportation service area. The district may not transport pupils from outside its transportation service area.
3. No school child attending an elementary school shall be required to ride the school bus under average road conditions more than one hour without consent of the child's parent or guardian.
4. School bus drivers are encouraged to make recommendations in regard to establishing or changing routes.
5. Parents should be referred to the Board of Trustees for any request of change in routes, stops, or schedules.

The Trustees reserve the right to change, alter, add or delete any route at such time that such changes are deemed in the best interest of the District subject to approval by the County Transportation Committee.

Bus Stops

Buses should stop only at designated places approved by school authorities. Exceptions should be made only in cases of emergency and inclement weather conditions.

Bus stops shall be chosen with safety in mind. Points shall be selected where motorists approaching from either direction will have a clear view of the bus for a distance of at least three hundred (300) to five hundred (500) feet.

School loading and unloading zones are to be established and marked to provide safe and orderly loading and unloading of students. The Supervising Teacher or Principal is responsible for the conduct of students waiting in loading zones.

Delay in Schedule

The Driver is to notify the Supervising Teacher or the Principal (most senior professional) of a delay in schedule. The administration will notify parents on routes and radio station, if necessary.

Responsibilities - Pupils

Pupils must realize that safety is based on group conduct. Talk should be in conversational tones at all times. There should be no shouting or loud talking which may distract the bus driver. There should be no shouting at passersby. Pupils should instantly obey any command or suggestions from the driver and/or his/her assistants.

Responsibilities - Parents

The interest and assistance of each parent is a valued asset to the transportation program. Parents' efforts towards making each bus trip a safe and pleasant experience are requested and appreciated. The following are only three of the many ways parents can assist:

1. Ensure that students are at the bus stop in sufficient time to efficiently meet the bus.
2. Properly prepare children for weather conditions.
3. Encourage school bus safety at home. Caution children regarding safe behavior and conduct while riding on the school bus.

Out-of-District: Students who reside outside the boundaries of the District may have a transportation fee in addition to a tuition fee as established in the Attendance Agreement. However, bus routes will not be extended outside of the District to accommodate these students.

Within the boundary limit (provided room is available): Students residing within the boundary limit may ride on the bus on a fee basis as established by the Trustees.

Safety

The Board of Trustees or the Principal shall develop written rules establishing the procedures for bus safety and emergency exit drills, and for student conduct while riding on buses.

If the bus and driver are present, the driver is responsible for the safety of his/her passengers, particularly for those who must cross a roadway prior to loading or after leaving the bus. Except in emergencies, no bus driver shall order or allow a student to board or disembark at other than his/her assigned stop unless so authorized by the Supervising Teacher or the Principal (most senior professional). In order to assure the safety of all, the bus driver may hold students accountable for their conduct during the course of transportation and may recommend corrective action against a student. Bus drivers are expressly prohibited from using corporal punishment.

The bus driver is responsible for the use of the warning and stop signaling systems and the consequent protection of his/her passengers. Failure to use the system constitutes negligence on the part of the driver.

The system must be used with judgment and courtesy. Its abuse causes resentment on the part of the public. A driver should allow approaching vehicles time to stop or pass before the flashing lights are used.

Inclement Weather

The Board recognizes the unpredictability and resulting dangers associated with the weather in Montana. To achieve the maximum safety for children and efficiency of operation, the Supervising Teacher or the Principal is empowered to make decisions as to the emergency operation of buses, the cancellation of bus routes and the closing of school in accordance with his/her best judgment. The Board may develop guidelines in cooperation with the administration to assist him/her in making such decisions.

NOTE: To receive full state/county reimbursement, budgets must have enough funds to cover the costs of any changes to the route.

NOTE: The county transportation committee has authority to establish transportation service areas should circumstances and/or geography (demographics) warrant.

Transportation of Students with Disabilities

Transportation shall be provided as a related service when a student with a disability requires special transportation in order to benefit from special education or to have access to an appropriate education placement. Transportation is defined as:

- (a) Travel to and from school and between schools;
- (b) Travel in and around school buildings or to those activities which are a regular part of the student's instructional program;
- (c) Specialized equipment (such as special or adapted buses, lifts, and ramps) if required to provide special transportation for a student with disabilities.

The Child Study Team, who develops the disabled student's Individualized Education Program, will determine on an individual basis when a student with a disability requires this related service. Such recommendations must be specified on the student's IEP. Only those children with disabilities who qualify for transportation as a related service under the provisions of the IDEA shall be entitled to special transportation. All other children with disabilities in the District have access to the District's regular transportation system under policies and procedures applicable to all students of the District. Utilizing the District's regular transportation service shall be viewed as a "least restrictive environment."

Mode of Transportation

If the District has an appropriate vehicle it will be the referred mode of transportation. Other arrangements such as an individual transportation contract may be arranged with the parents. Such voluntary agreement shall stipulate in writing the terms of reimbursement.

Buses used in the District's transportation program shall be in safe and legal operating condition. All buses shall be inspected by the Department of Justice, Montana Highway Patrol, before the beginning of each semester. The Board of Trustees or the Administration shall establish a specific list of tasks that bus drivers shall perform on a daily basis. Each bus driver shall meet the qualifications established by the Superintendent of Public Instruction, including a valid Montana commercial driver's license and a (Department of Transportation approved physical) physician's certification that he/she is medically qualified for employment as a bus driver. The bus driver shall also secure a valid standard first aid certificate from an authorized instructor within two months after being employed and maintain the certificate throughout employment as a bus driver. The bus driver must have five years driving experience.

When a teacher or other certified staff member is assigned to accompany students on a bus, such person shall be primarily responsible for the behavior of the students in his/her charge. The bus driver shall have final authority and responsibility for the bus.

The bus driver shall be responsible for enforcing the rules, and shall work closely with the parents and building principal to modify a student's behavior. The rules shall include consistent consequences for student misbehavior.

Recommendations for permanent termination of bus privileges will be referred to the Board of Trustees for final determination. No further appeal shall be allowed.

A recommendation to terminate bus privileges shall be accompanied by a written record of the incident(s) that led to the recommendation.

Emergencies

In the event of an accident or other emergency, the bus driver shall follow the emergency procedures developed by the Board of Trustees or the Administration. A copy of the emergency procedures shall be located in each bus. Liability Insurance

The Board and its agents are immune from suit for their legislative acts as defined in §2-9-111, MCA. The Board shall maintain sufficient liability insurance to protect itself against claims for the negligent or wrongful acts of its staff or agents. The amount and terms of such insurance protection shall be regularly reviewed as part of the District's risk management program.

The Board shall hold individual Board members, staff or agents of the District harmless and defend them from any financial loss, including reasonable attorneys' fees, arising out of any act or failure to act, provided that at the time the individual was acting within the scope of his/her responsibilities and in compliance with the policies and procedures of the District.

Property Damage

The District shall maintain a comprehensive insurance program which shall provide adequate coverage, as determined by the Board, in the event of loss or damage to school buildings and/or equipment, including motor vehicles. District Safety

For the purposes of this policy, “disaster means the occurrence or imminent threat of damage, injury, or loss of life or property.”

The Alder board recognizes that safety and health standards should be incorporated into all aspects of the operation of the District. Rules for safety and prevention of accidents will be posted in compliance with the Montana Safety Culture Act and the Montana Safety Act. Injuries and accidents will be reported to the District Office or the lead teacher.

The Board of Trustees has identified the following local hazards that exist within the boundaries of its school district: fire, earthquake, extreme weather conditions (including high winds, tornadoes, hail, and floods), intruders, firearms, explosive devices, and dangerous animals.

The lead teacher shall design and incorporate drills in its school safety or emergency operations plan to address the above stated hazards. The trustees shall certify to the Office of Public Instruction that a school safety or emergency operations plan has been adopted. This plan and procedures will be discussed and distributed to each teacher at the beginning of each school year. There will be at least eight (8) disaster drills a year in a school. All teachers will discuss safety drill procedures with their class at the beginning of each year and will have them posted in a conspicuous place next to the exit door. Drills must be held at different hours of the day or evening to avoid distinction between drills and actual disasters. A record will be kept of all fire drills.

The Trustees shall review the school safety or emergency operations plan periodically and update the plan as determined necessary by the Trustees based on changing circumstances pertaining to school safety. Once the Trustees have made the certification to the Office of Public Instruction, the Trustees may transfer funds pursuant to Section 2.20-1-401, MCA to make improvements to school safety and security.

Fire Drills

Students shall receive instruction so that in case of fire or sudden emergency they shall be able to leave their particular building in the shortest time possible, or take such other steps as the particular emergency demands, and without confusion or panic.

Fire drills will occur on a regular basis as required by state law. (A minimum of eight (8) drills shall be held each year.) A record will be kept of all fire drills. Appropriate procedures for fire drills will be discussed at the beginning of the school year in class by all teachers and posted in a conspicuous place near the exit door.

1. At the fire alarm, all students will rise and walk to the nearest exit according to previous instructions.
2. Teachers will make sure all room windows are closed, all students exit, lights are turned off and the room door is closed. Students may be assigned to assist.
3. Teachers having classes will take their roll book with them.
4. Teachers on prep periods will station themselves in the hallways to assist in keeping order.
5. Classroom teachers will make sure their class is a safe distance away from the building and take an oral roll call from the roll book to account for students.
6. Everyone will exit the building, and no one will re-enter until authorized by the principal or his/her designee.
7. Everyone will exit when the fire alarm sounds regardless of the length of the horn sounding. No one is to assume that any alarm is caused by a faulty system.

Earthquakes

The Board of Trustees adopts the following procedures and regulations pertaining to action taken by the District should an earthquake occur while school is in session and shall provide that all students and staff are familiar with those procedures.

Students and staff within buildings at the beginning of an earthquake should remain where they are, sitting, or crouching below the level of desks and tables. When possible, movement should be away from windows and outside walls toward inner walls and doorways.

Students and staff outside the buildings at the beginning of an earthquake should immediately get as far away as possible from buildings and other elevated objects.

Staff in portable classrooms should turn off heating and lighting units immediately.

Students and staff in classrooms where hazardous chemicals or electrical services are present should vacate these rooms in the event of an earthquake. Such classes include, but are not limited to, general science, and crafts. Students and staff should move toward the interior of the building into the hall while avoiding those hallways in which skylights are located and areas adjacent to the end of halls where glass is present.

Students and staff should remain where they are following an earthquake until given further instruction. **In instances of major damage in the community, students may need to be attended for an extended period of time. In such circumstances, students must not be released at the end of the normal day until a parent or other responsible person calls for them.**

The Board of Trustees shall inspect the building for possible structural damage following an earthquake. If the building is founded to be weakened in any respect, it shall be evacuated.

Emergency School Evacuation

When an emergency within a school or its surrounding area necessitates evacuation and/or total or partial closure of the schools within the District, staff shall be responsible for aiding in the safe evacuation of the students within the endangered school or its surrounding area.

When an emergency within a school necessitates total or partial closure of the schools within the District threatens the safety and well being of students, and/or interferes in the normal operation of the school, the following emergency procedure shall be followed:

1. The report of an emergency shall be directed to the Board of Trustees.
2. If the nature of the emergency calls for immediate action on the part of a Supervising Teacher or Principal, he/she shall take necessary action and report such action to the Board of Trustees.
3. The Board of Trustees shall contact the personnel at the school who must assist in the emergency action.
4. When appropriate, the Board of Trustees shall contact the police or sheriff's department.

The Supervising Teacher or Principal shall instruct staff, including teachers, secretaries, aides, and bus drivers, as to their respective responsibilities in an evacuation exercise.

The Supervising Teacher or Principal shall be responsible for organizing and conducting such emergency evacuation drills as are necessary and shall objectively evaluate the activity following each such drill. In the absence of the Supervising Teacher, staff must be able to conduct all aspects of the evacuation procedure.

Tornado

The Board of Trustees establishes the following procedures to ensure student safety in the event of a tornado.

Tornado Watch - A tornado may develop

Tornado Warning - A tornado has been sighted; take shelter

Should a tornado be sighted, an announcement will be made in a calm manner. All students are to remain in the room that they are in when the announcement is made.

Procedure:

1. Open windows and pull shades.
2. All students are to kneel by inside walls using hands, books, tables, etc., for protection.
3. Students in the library are to kneel under the tables.
4. Students in hallways are to move to the nearest available room.
5. Everyone remains in this position until an "all-clear" is given.

Exceptions:

1. Before school starts: Direct all students to kneel by an inside hallway wall or enter the nearest room and follow the above procedures.
2. All School Program: The Program will stop; students will be filed into the hallways and follow the above procedure. Teachers will supervise their advisory groups. If time allows, teachers may be directed to take the students back to the rooms.

Power Outage

In order to ensure student safety and maintain an orderly environment, the Board of Trustees adopts the following procedures to be followed in the event of a power outage.

Power Outage

1. Students will remain in their classrooms until a runner from the Supervising Teacher announces dismissal.
2. All classroom doors should be opened unless otherwise instructed.
3. Assume the outage is of short-term duration and continue with your classroom assignments. If the regular activity cannot be continued, initiate alternative activities such as oral discussions.
4. The Supervising Teacher or Principal will be around to classrooms as soon as possible to announce what the problem is and to give additional instructions.
5. Policy statement on conditions necessitating early dismissal will be in effect.

School Emergency Management Plan**Development and Revision of Emergency Management Plans**

To ensure the safety and health of children and staff and the integration and coordination with city, county, and state emergency and disaster plans, the Board of Trustees shall:

1. by October 1, 2009, develop and exercise a school emergency management plan; and
2. by October 1 of each succeeding school year, review and, if necessary, revise the school emergency plan.

The Board of Trustees shall:

1. ensure that a current copy of the school emergency management plan is available in the school for public review;
2. provide District staff with a copy of the current plan;
3. in coordination with county emergency service officials, conduct one test during each school year of an emergency response to a local hazard that is identified in the plan (This test may be as simple as an in-house tabletop exercise or as complex as a full-scale exercise.);
4. coordinate with city, county, and state emergency services agencies in developing prearranged agreements for the use of school resources, facilities, or vehicles during an emergency or disaster.
5. be available or designate a person to be available as a communication liaison for the District during a local or state emergency or disaster; and
6. conduct fire exit and local hazard drills as required by Montana law during the school year.

Plan Requirements

Each plan must include but is not limited to:

1. information about the location of the school within the District, including school population, number of staff, transportation needs, and the business and home telephone numbers of officials of the District;
2. the identification of local hazards that exist within the boundaries of the District;
3. drills designed specifically to provide emergency response to the identified local hazards, including drills to use an evacuation signal and a separate recall signal. (These evacuation systems and recalling signaling systems may be an electronic bell system, hand bell, or whistle as is appropriate to the school);
4. a description of the arrangements for obtaining assistance during an emergency or disaster from emergency services organizations;
5. a description of procedures to coordinate the use of District resources and staff during an emergency or disaster, including the identification of officials who are authorized to make decisions and the staff members who are assigned to provide assistance during an emergency or disaster;
6. a description of the procedures for notifying the local fire department or 9-1-1 service, as appropriate, whenever an emergency exists; and
7. a description of procedures for obtaining advice or assistance from local government officials responsible for conducting inspections of facility exits or implementation of emergency and disaster services provide in Title 10.

Service Animals

For the purposes of this policy, state law defines a service animal as a dog or any other animal that is individually trained to do work or perform tasks as the benefit of an individual with a disability. Federal law definition of a disability includes a physical, sensory, psychiatric, intellectual, or other mental disability.

The district shall permit the use of a miniature horse by an individual with a disability, according to the assessments factors as outlined in Policy 8425P, if the miniature horse has been individually trained to do work or perform tasks for the benefit of the individual with a disability.

The Alder School District will permit the use of service animals by an individual with a disability according to state and federal regulations. The work or tasks performed by a service animal must be directly related to the handler's disability. Examples of work or tasks include, but are not limited to, assisting individuals who are blind or have low vision with navigation and other tasks, alerting individuals who are deaf or hard of hearing to the presence of people or sounds, providing nonviolent protection or rescue work, pulling a wheelchair, assisting an individual during a seizure, alerting individuals to the presence of allergens, retrieving items such as medicine or the telephone, providing physical support and assistance with balance and stability to individuals with mobility disabilities, and helping persons with psychiatric and neurological disabilities by preventing or interrupting impulsive or destructive behaviors.

The crime deterrent effects of an animal's presence and the provision of emotional support, well-being, comfort, or companionship do not constitute work or tasks for the purposes of this definition.

The district may ask an individual with a disability to remove a service animal from the premises if:

- The animal is out of control and the animal's handler does not take effective action to control it
- OR
- The animal is not housebroken
 - The District is not responsible for the care or supervision of the service animal.

Individuals with disabilities shall be permitted to be accompanied by their service animals in all areas of the District's facilities where members of the public, participants in services, programs or activities, or invitees, as relevant are allowed to go.

Service Animal Allowance Procedure

The following procedures have been developed which will help guide the administration when a request for the use of a service animal has been presented by an individual with a disability.

Inquiries: The administration shall not ask about the nature or extent of a person's disability, but may make two inquiries to determine whether an animal qualifies as a service animal. The administration may ask if the animal is required because of a disability and what work or task the animal has been trained to perform. The administration shall not require documentation, such as proof that the animal has been certified, trained, or licensed as a service animal. Generally, the administration may not make these inquiries about a service animal when it is readily apparent that an animal is trained to do work or perform tasks for an individual with a disability (e.g., the dog is observed guiding an individual who is blind or has low vision, pulling a person's wheelchair, or providing assistance with stability or balance to an individual with an observable mobility disability).

Exclusions: The administration may ask the individual to remove the service animal from the premises if the animal is out of control and the handler does not take effective action to control it, or if the animal is not housebroken. If the administration properly excludes the service animal, it shall give the individual the opportunity to participate in the service, program, or activity without having the service animal on the premises.

Surcharges: The administration shall not ask or require the individual to pay a surcharge, even if people who are accompanied by pets are required to pay fees, or to comply with other requirements generally not applicable to people without pets. If the district normally charges individuals for the damage they cause, the individual may be charged for damage caused by his or her service animal.

Miniature horses assessment factors: In determining whether reasonable modifications can be made to allow a miniature horse into a specific facility, the district shall consider:

- The type, size, and weight of the miniature horse
- Whether the miniature horse is housebroken, and
- Whether the miniature horse's presence in a specific facility compromises legitimate safety requirements that are necessary for safe operation.

Records Management

The District will retain, in a manner consistent with applicable law and the state's *Rules for Disposition of Local Government Records*, such records as are required by law or regulations to be created and/or maintained, and such other records as are related to students, school personnel, and the operations of the schools.

For the purpose of this policy, "records" are all documentary materials, regardless, of media or characteristics, made or received and maintained by the school unit in transaction of its business. Records include e-mail and other digital communications sent and received.

Records may be created, received, and stored in multiple formats, including but not limited to print, microfiche, audio and videotapes, and various digital forms (on hard drives, computer disks, CD's, flash drives, servers, etc.)

The lead teacher, the district clerk, and the authorized representative will be responsible for developing and implementing a records management program for the cataloging, maintaining, storage, retrieval, and disposition of school records. They will also be responsible for developing guidelines to assist school employees in understanding the kinds of information that must be saved and those which can be disposed of or deleted. The Superintendent may delegate records-management responsibilities to other school personnel at his/her discretion to facilitate implementation of this policy.

All personnel records made or kept by an employer, including, but not necessarily limited to application forms and other records related to hiring, promotion, demotion, transfer, layoff, or termination, rates of pay or other terms of compensation and selection for training or apprenticeship, shall be preserved for 2 years from the date the record is made or from the date of the personnel action involved, whichever occurs later.

Student records must be permanently kept, and employment records must be kept for 10 years after termination.

Litigation Holds for Electronic Stored Information (ESI)

The School District will have an ESI Team. The ESI team is a designated group of individuals who implement and monitor litigation holds, a directive not to destroy ESI that might be relevant to a pending or imminent legal proceeding. The ESI Team will include a designated school administrator, an attorney, and a member of the technology department. In the case of a litigation hold, the ESI Team shall direct employees and the technology department, as necessary, to suspend the normal retention procedure for all related records.

Inspections of ESI

Any requests for ESI records should be made in writing and will be received by the Authorized Representative of designee, in consultation with an attorney if needed, and released in accordance with Montana public records law.

Delegated Authority

The Board delegates to the Authorized Representative or designees the right to implement and enforce additional procedures or directives relating to ESI retention consistent with this policy, as needed.

The Board recognizes the importance the physical plant plays in enhancing the instructional program. The Board shall develop a program to maintain and/or upgrade the buildings and grounds of the district. Facilities represent a long-term investment of the District. The functional utility of such facilities can be increased with a regular maintenance program monitored by staff.

Planning

The Board further recognizes the importance of planning in order to provide the anticipated facility needs of the future.

In order to provide an appropriate physical environment for learning and teaching, the following factors shall be considered in the planning of District facilities:

1. Facilities will accommodate the educational needs of students and be consistent with the educational philosophy and instructional goals of the District.
2. Facilities will meet all health and safety regulations.
3. The District will seek additional (federal or other ancillary) moneys when available to supplement its own financial resources.
4. Undesirable environmental impact shall be minimized.
5. Changing demographic factors will be monitored in order that students' needs are met.

Educational Specifications

Facilities shall be designed to accommodate the educational and instructional needs of the District. The professional experience and judgment of staff shall be solicited in developing such educational specifications. When the Board considers major remodeling or building a facility, it shall endeavor to seek facility expertise in all affected program areas as well as comments from faculty, students, and community. The law requires that special attention to accessibility of the education program of students of both genders and those with disabilities be given. Site Acquisition and Bonds

Site Acquisition

The District will attempt to acquire building sites in advance of the actual construction of facilities, in order to minimize delay in construction projects and to realize financial savings to the District. The Board will periodically review its inventory of land in light of growth trends in the District and make such transactions as it determines shall best meet the future needs of the District.

In acquiring a new site, the Board must first secure the approval of the qualified electorate before any contract for the purpose of such site is entered into, except the Trustees may take an option on a site prior to the site approval election. The Board may acquire property contiguous to a school site in use, without such vote. Site approval also is not necessary if it was specifically mentioned in a fund-raising issue, which was subsequently approved by the electorate.

Bonds

The Board may issue or redeem bonds in any manner as provided by law.

Security

Security means not only maintenance of buildings, but also protection from fire hazards and faulty equipment and safe practices in the use of electrical, plumbing, and heating equipment. The Board requires and encourages close cooperation with local police, fire, and sheriff departments and with insurance company inspectors.

Access to school buildings and grounds outside of regular school hours shall be limited to staff whose work requires access. An adequate key control system shall be established which shall limit access to buildings to authorized staff and shall safeguard against the potential entry of unauthorized persons.

Records and funds shall be kept in a safe place and under lock and key when required.

All incidents of vandalism and burglary shall be reported to the Board of Trustees immediately and to law enforcement agencies as appropriate.

Equipment Security

District equipment shall be under the control of the Supervising Teacher, or Principal, (the most senior professional) and will be checked out by him/her during the school year. There will be a record of who has it, where it is, and when it is to be returned.

The person using the equipment must know how to use it and the appropriate safety precautions required. Students cannot allow others to operate District equipment without the express approval of the Supervising Teacher or Principal.

Care of School Property

The Supervising Teacher or Principal and staff shall insure that District property is not abused. Students or non-students who abuse school property may be disciplined and costs assessed for property abuse. Liability for the damage incurred will fall on those responsible for the abuse. 1. Damage of any nature to school property shall be reported to the Supervising Teacher or Principal.
2. A Damage or Loss Report shall be submitted to the Board of Trustees. In the event of a break-in, whether damage is noted or not, the Board shall report the occurrence to a law enforcement agency. Care shall be taken to avoid disturbing evidence that may be associated with the break-in.
3. An investigation to establish the individuals responsible for acts of vandalism or theft shall be initiated.
4. A professional shall estimate repair or replacement costs for damage.
5. Parents shall be informed, in writing, regarding the nature of the damages, how restitution may be made, and how appeal may be initiated.
6. The Clerk of the District, upon receipt of the damage or loss report, shall bill the student's parents for the repair or replacement costs. Some emergency work may be required prior to all of these steps. That bill shall also go to the guilty party.
7. The Clerk shall notify the District's property insurer as soon as possible.
8. Copies of the parent notification along with estimate of damages shall be sent to the Board of Trustees and the Supervising Teacher, Principal or District Superintendent (the most senior professional).
9. The Supervising Teacher or Principal will review any appeal made by the student and/or parents.
10. The student and/or parents shall be advised that they may appeal the decision of the Supervising Teacher at the next regular meeting of the Board (see Policy #3520). No further appeal shall be allowed.

Transfers for School Safety

It is the policy of the District to increase the flexibility and efficiency of the District's resources by utilizing the provision of law allowing transfers of funds to improve school safety and security.

The District may transfer state or local revenue from any budgeted or non-budgeted fund, other than the debt service fund or retirement fund, to its building reserve fund in any amount not to exceed the school district's estimated costs of improvements to school safety and security.

The transfer of funds can be for:

1. planning for improvements to school safety, including but not limited to the cost of services provided by architects, engineers, and other consultants;
2. installing or updating locking mechanisms and ingress and egress systems at public school access points, including but not limited to systems for exterior egress doors and interior passageways and rooms, using contemporary technologies;
3. installing or updating bullet-resistant windows and barriers; and
4. installing or updating emergency response systems using contemporary technologies.

Any transfers made under this policy and Montana law are not considered expenditures to be applied against budget authority. Any revenue transfers that are not encumbered for expenditures in compliance with the four reasons stated above, within 2 full school fiscal years after the funds are transferred, must be transferred back to the originating fund from which the revenue was transferred.

If transfer funds are made from a District fund supported by a non-voted levy, the District may not increase its non-voted levy for the purpose of restoring the transferred funds.
